I. Introduction

The 2023 Montana Legislature authorized the Montana Tourism Development Grant Program. An allocation of the 4% Lodging Facility Use Tax, commonly known as the bed tax, funds the Montana Tourism Development Grant Program (“MTDGP” or “Program”). The Department of Commerce (“Department” or “Commerce”) has established the use of the 4% Lodging Facility Use Tax to invest in the MTDGP.

The purpose of the MTDGP is to strengthen communities across Montana by increasing their economic appeal and vibrancy as welcoming visitor destinations. The MTDGP

accomplishes this by supporting rural and under-visited communities through improvements to tourism infrastructure, tourism product development and preservation of natural and cultural heritage. Developing tourism in a sustainable and manageable manner boosts Montana’s rural and under-visited communities by diversifying local economies, fostering community pride, and creating tourism destinations that represent the qualities that make rural communities special. The Department’s Destination MT Division (“Destination MT” or “Division”) administers the reimbursement-based MTDGP in accordance with these guidelines.

The Program:

- (i) Strengthens rural and under-visited communities through infrastructure, accommodations and amenities improvements
- (ii) Improves visitation assets, product development, attractions, wayfinding, access and transportation

II. Definitions

Commerce has adopted the following definitions:

Advisory Committee: The primary purpose of the committee is to provide expertise, diverse viewpoints, informed advice to the grantee, aid in strategic planning, community engagement, fundraising, and/or problem solving as identified and requested by the grantee.

Cohort: A group of MTDGPP grantees during the same funding cycle.

Community: A specific geo-location or a group of communities within a destination that has prioritized tourism as an economic development strategy and are interested in working collaboratively. A group of communities can be based on various factors including geographic location, shared values, cultural identity, and/or common visitation asset development.

Community Commitment: The active involvement and engagement of local residents in the planning, development, and management of tourism activities within their area.

Community Readiness: A community's overall preparedness to engage in and benefit from tourism development by encompassing factors like community knowledge and awareness, community attitudes and perceptions, community resources and participation, community leadership and governance and infrastructure and services.

Destination: A popular geo-location that attracts visitors from more than 50 miles for tourism related activities.

Grantee: The applicant who applies for and is awarded a Montana Tourism Development Grant from the Department. The lead entity will become the grantee.

Invoice: A proof of transaction, bill or bill of costs from an entity that includes: the invoice number(s), a brief description of goods delivered and/or services performed, service rate, date(s) service was performed, type(s)/number of delivered goods and total amount being billed.

Lead Entity: Refers to the eligible organization or agency that will take primary responsibility and fiscal obligations for the project(s) and/or initiatives approved within the contract and will become the grantee for the MTDGPP. This entity, if awarded, will become the grantee and enter into a contract with the Department and is responsible for ensuring the successful management of approved activities and adherence to established goals and contractual and program requirements and will receive all funding for the program.

Nonprofit Convention and Visitor Bureau (CVB): Also referred to as a Destination Marketing/Management Organization (DMO), refers to a nonprofit corporation organized under Montana law and recognized by a majority of the governing body in the city, consolidated city-county, resort area, or resort area district in which the bureau is located, and which is recognized by the Tourism Advisory Council.

Over-visited: The 4% Lodging Facility Use Tax dataset determines if a place is over or under-visited, based on a 3-year average of a CVB's bed tax collection. If a CVB's bed tax collection is above the simple average of all CVBs' bed tax collections, then it is over-visited. This designation will be analyzed every year and [the Layered Map of Urban and Overvisited Designations](#) will be updated accordingly.

Rural: Rural is defined as "not Urban." See below.

Tourism: Refers to the activity of people traveling to and staying in places at least 50 miles from their usual environment for leisure, recreation, business or other purposes.

Urban: Urban places are defined as either: 1) a census urban area with a population at or exceeding 30,000 people according to the most recent United States census; or 2) an incorporated city/town within 10 miles of one of those large urban areas. Geo-locations in Montana that currently meet the first definition include Billings, Bozeman, Butte, Great Falls, Helena, Kalispell, Missoula and Whitefish. Geo-locations in Montana that currently meet the second definition include Belgrade, Columbia Falls, East Helena, Laurel and Walkerville. This designation will be analyzed every year and the [Layered Map of Urban and Overvisited Designations](#) will be updated accordingly.

Under-visited: The 4% Lodging Facility Use Tax dataset determines if a place is over or under visited, based on a 3-year average of a CVB's bed tax collection. If a CVB's bed tax collection is below the simple average of all CVBs' bed tax collections, then it is under-visited. This designation will be analyzed every year and the [Layered Map of Urban and Overvisited Designations](#) will be updated accordingly.

Visitation Asset: Refers to any feature of a destination that either attracts leisure visitation or supports a leisure visitor's ability to travel to, stay at or engage with a travel behavior at the destination.
