WHEREUPON, the following proceedings were had: 1 2 CHAIRMAN WILLIAMS: Okay. As we, as we talk we need to press, everybody. And make sure everybody 3 4 (inaudible) in, please. And there's copies of the agenda 5 on the back of the room, so I invite you to, to take a 6 look at the processes that, that we have in place 7 (inaudible). 8 I will call the meeting to order and ask for a roll call, please. 9 MS. PICHETTE: Chairman Williams. 10 11 CHAIRMAN WILLIAMS: Here. 12 MS. PICHETTE: Vice-Chair Fitzpatrick. VICE-CHAIR FITZPATRICK: 13 Here. 14 MS. PICHETTE: Shawn Fredrickson. 15 Shawn, if you're on the phone, you may have to hit the 16 star button and then the 2 to unmute your phone. 17 BOARD MEMBER FREDRICKSON: Thanks, Anne. I'm 18 here. 19 MS. PICHETTE: Thank you, Shawn. 20 Amber Henning 21 BOARD MEMBER HENNING: 22 MS. PICHETTE: Marianne Roose. 23 Marianne, if you're on the phone, the same for you, 24 star-2 will unmute your phone and we'll be able to hear 25 you.

1 | Tim Schaff.

2 BOARD MEMBER SCHAFF: Here.

3 MS. PICHETTE: Veronica Small-Eastman.

BOARD MEMBER SMALL-EASTMAN: Here.

MS. PICHETTE: Marianne, are you on? Did you get your phone unmuted?

CHAIRMAN WILLIAMS: Okay. Thank you.

I would like to welcome John Mueller, who is our administrative assistant, a new employee with the Department of Commerce, and also Amber Henning to my left. Amber is a new board member. She's an attorney. And so we have a full slate of, of board members. And I'd like to welcome John and Amber.

BOARD MEMBER HENNING: Thank you, Mr. Chairman. Glad to be here.

CHAIRMAN WILLIAMS: Thank you.

Okay. On, on our agenda, we're going to -- A little different process with the agenda. And it's, it's an opportunity to, to involve the public more into the process. And after every item that, that -- on the agenda, we'll give the public an opportunity to comment on those particular items.

I will ask that as we, as we open this up for the opportunity for public comment, the first opportunity is for items that are not on the agenda. But I will give

everybody an opportunity as we approach the agenda items for you to comment on. But the first public participation is for items that are not on the agenda. So I welcome all of your comments as we go through the process. It's a very important process to be very -- very open with the discussions so that you hear the discussions that occur both on the Board and we also have the opportunity to hear the discussions and the comments from you, the public that we are serving. So thank you for being here this morning.

I would also ask all of the Board to please direct your comments through myself, and I will give every board member the opportunity to comment on issues that are before us.

So the first item that we have is an opportunity for public comment on items not on the agenda. So I welcome the public to make comments to myself and the Board.

MR. ATCHISON: Thank you, Mr. Chairman, Members of the Coal Board. For the record, I'm Jim Atchison with Southeastern Montana Development. And Mr. Chairman, I have a couple things to share with the, the Coal Board today and then a couple handouts.

And first of all, I have the new 2018 Coal Council brochure, which is full of facts and figures on the coal industry in Montana, fairly up to date -- well, about two weeks old, so it's right off the press. Like I said,

lots of facts and figures, and I will hand that out later, if I could, Mr. Chairman.

And also, I wanted to also share with the Coal Board numerous meetings going on and, and workshops and conferences coming up in, in, a lot of them are in Billings. April 6th, the Wheeler Center is sponsoring the Future of Coal Forum right here in Billings. I don't have the contact information, but you can find that.

April 18th and 19th is the Coal Reliant Communities
Workshop, hosted by NATO and the federal EDA
Administration right here in Billings. That's April 18th
and 19th. And some of you that are in the room that
participated or attended the Denver conference last year,
it was well worth the free admission; absolutely fantastic
conference, especially those of us that are being impacted
in these smaller rural communities by coal impact. I
would highly encourage that one.

May 30th and 31st, Senator Daines's Energy Summit will be here in Billings as well.

And later on in August, August 16th and 17th, we, our organization is hosting the 15th Annual Energy Open Conference and Golf Tournament. And of course, our slogan is Showcasing the Economic Benefits of Responsible Energy Development. And we've been hosting that for 15 years now. So if you can take that in, it would be well worth

l it.

And Mr. Chairman, I do have handouts, if I could share those.

CHAIRMAN WILLIAMS: Sure. Please.

MR. ATCHISON: Okay. Thank you.

CHAIRMAN WILLIAMS: Thank you.

MR. GERKE: Mr. Chairman, Members of the Coal Board, for the record, my name is Dennis Gerke, superintendent, Hardin Public Schools. I'll be brief.

I just want to take a moment to brag a little bit about our boys' basketball team, who won their first Class A Boys' State Championship in 21 years. And I'd just like to share that with the Board and maybe make a couple comments about Vice-Chair Fitzpatrick. You know, he told me that he coached some of these kids that were on the team when they were in the intermediate school, and I know he coached some of those kids and he's done it for about 20 years. But I can say this for sure: Thank goodness he did not teach them how to shoot.

So with that, thank you for the opportunity.

CHAIRMAN WILLIAMS: Thank you. And congratulations.

MS. BAILEY: Mr. Chairman, Coal Board Members, for the record, I'm Kathie Bailey with Snowy Mountain Development Corporation. I've been coming to these

Coal Board meetings for over 17 years now, along with the legislative testimony, and it's been kind of quite a ride to see the changes. And I do want to say that I probably have not been more disheartened than I am right now, but I want you to know, as Coal Board Members, how much we really appreciate the work that you're doing and the impact that you're having in our communities.

Our rural communities that are impacted by coal have significant needs, and it's infrastructure needs, it's social services needs, it's educational needs, a huge litany of needs. And we really appreciate the resources that we get from the Coal Board. They are critical, and they are very important to us.

In the past, I've asked for the finances so that we could look and see what's happened over the years, and I did not find them online, but I do see there is one in the book in the back. And I would hope that maybe either we could upload that so that we could have copies of that or it could be emailed out to us that are interested especially in that aspect of it. I would greatly appreciate it. I couldn't see very well this morning with my little tiny print and my glasses. Yeah.

And the other thing, I was wondering if I could ask if you would use our testimony as verbatim in the minutes rather than a synopsis of what we say. There have -- it

is -- it does leave it open for interpretation, and I'm concerned that maybe our, our testimony is not always interpreted as we said it. So I would hope you would consider doing our actual testimony in your minutes.

Again, thank you guys for all that you do. We really appreciate it.

CHAIRMAN WILLIAMS: Thank you.

COMMISSIONER BERRY: Mr. Chair, Members of the Board -- woops don't knock that over -- Commissioner Berry, Musselshell County. I'm not going to talk about any specific grants, per your request, but I am just going to talk a little bit about the direction that the Board and the requests for grants is taking.

There is several requests for large grants, and

Musselshell County has also requested some large grants in
the past. But what I am saying, I don't see the
participation from the applicants that we have in the
past. For example, Musselshell Schools has got \$500,000
for their, their schools, but we've also passed a
\$10 million bond issue. I think it's something like that.

Maybe Member, Mr. Schaff would -- but -- So yes.

And so that's what I'm saying. I'm seeing some of these large grants come through, but where is the participation from the participant? We -- I feel that on these large grants, there should be more participation

from the applicant, not just coming to the Coal Board for the majority of the grant. And I see a direction that is going through the Coal Board now, and I think it's the wrong direction.

Our coal countries are mostly rural countries, and we have a lot of problems with public safety. And the public safety is things like our roads, road graders or gravel hauling trucks and things like that, fire trucks, police vehicles. And those particular items are usually not real large grant requests and we don't have a participation there but is actual needs for the coal counties for public safety.

And so I just want to summarize by saying I really do kind of question the, the direction that the Board is going or else the requests to the Board, and I'd like to have the Board really take a hard look at these requests and also some participation on some of these requests.

Thank you very much.

CHAIRMAN WILLIAMS: Thank you, Mr. Berry. One -just a comment on, on that. When you're talking about
participation, I'm going to figure that you're indicating
the degree of local effort in meeting those needs?

Thank you.

Other comments from the public, please.

MS. SMALL-PLENTY: Good morning, Mr. Chair and

Board Members. My name is Paula Small-Plenty. I'm just giving an update on two open projects that we have through Big Horn Hospital and Heritage Acres in Hardin.

Our nurse's station program which was approved in June of 2017, we are in the midst of construction as we speak, with a completion date of April 19th. And that is on schedule and progressing nicely. Our other project that was approved in December of 2016 was an elevator modernization to two elevators that we have at the Heritage Acres property. We will be starting that project August 1st, with a six-week completion deadline. And so hopefully by your September meeting, we'll have completion reports for both of those projects.

Like your previous speakers, I again want to thank you for the work that you guys do. We do appreciate it. And with our projects, we do try to have a local participation, either through our county or our hospital association. So thank you.

CHAIRMAN WILLIAMS: Thank you. Thank you for the update.

Other comments?

Okay. Thank you for those comments.

The next item on the agenda is the approval of the minutes from the January the 18th, 2018, and February the 9th, 2018 meetings. And this is also an opportunity

1 for any comments that the public may have on -- regarding 2 those minutes. And you heard Kathie Bailey's comments on 3 I don't know if we can do it verbatim, but we'll 4 consider that. The staff can consider that, see what we 5 could do to further expand --6 MS. OLSON: Mr. Chairman. Excuse me, 7 Mr. Chairman. We also have -- Because the last Coal Board 8 meeting we actually didn't have John on board yet and Amy 9 had left, we do have a transcript available that we're 10 happy to post online as well. 11 CHAIRMAN WILLIAMS: Okay. Thank you. 12 Any comments? A motion to approve the minutes from the Board? 13 14 BOARD MEMBER SCHAFF: So moved. 15 CHAIRMAN WILLIAMS: And second? 16 A BOARD MEMBER: Second. CHAIRMAN WILLIAMS: It's been moved and seconded. 17 18 Discussion from the Board. 19 Any other discussion? 20 Roll call vote, please. 21 MS. PICHETTE: Vice-Chair Fitzpatrick. 22 VICE-CHAIR FITZPATRICK: Yes. 23 MS. PICHETTE: Shawn Fredrickson. 24 BOARD MEMBER FREDRICKSON: Yes. MS. PICHETTE: Shawn, you may have to unmute your 25

phone again. Star-2. 1 2 BOARD MEMBER FREDRICKSON: Yes. Can you hear me? 3 MS. PICHETTE: We can. Thank you very much. Did 4 you hear the motion to approve the minutes? 5 BOARD MEMBER FREDRICKSON: Yes. 6 MS. PICHETTE: And is your -- what is your vote? 7 BOARD MEMBER FREDRICKSON: To approve the 8 minutes. 9 MS. PICHETTE: Thank you. 10 Amber Henning. 11 BOARD MEMBER HENNING: Yes. 12 MS. PICHETTE: Marianne Roose. 13 Marianne, we think we heard you join the call. 14 you're on the call, we're doing roll call vote on the 15 approval of the minutes. You will need to hit the star 16 button and the 2 button to unmute your phone so we can 17 hear you. 18 Marianne, we'll come back to you. Tim Schaff. 19 20 BOARD MEMBER SCHAFF: Yes. 21 MS. PICHETTE: Veronica Small-Eastman. 22 BOARD MEMBER SMALL-EASTMAN: 23 MS. PICHETTE: Chairman Williams. 24 CHAIRMAN WILLIAMS: 25 MS. PICHETTE: Marianne Roose, are you on the

call?

CHAIRMAN WILLIAMS: Thank you. The minutes are approved.

Okay. Project updates.

Budget status update, please.

MS. OLSON: Thank you, Mr. Chairman. I actually -- there's information in your packet, but I also have an updated, some other information that I'd like to present to the Board so that way you have a better understanding of our budget update. I think I have the tickle in my throat that someone else had.

At any rate, if you'd turn to your tab Budget and Project Update. As previously requested at the last board meeting, the Board asked for a revenue history. That's provided in your binder. And then also, under the Applications for Consideration, you'll see that there are two budgetary updates. One shows December 2017. That's because they're all of those projects that are tabled from the scheduled December meeting that was rescheduled to January. And then also, we have the applications for consideration which is March 2018. So I'll be using the March 2018 to begin our budgetary discussion.

As you might recall, House Bill 209 that was passed during the 2017 Legislature for the 2019 biennium established an appropriation of \$6.822.204. And that

appropriation is broken up into two fiscal years:

Fiscal Year 2018, with the maximum appropriation available of \$3,403,336; with federal -- or, excuse me, with Fiscal Year 2019 appropriation being \$3,418,868. So the combination of those two fiscal years equals your total biennial appropriation of the \$6.8 million.

The revenue that has been available to date is \$1,970,962.22. I'm going to flip you back to the revenue history to explain where we're getting that number from. So as you can see, this chart shows you revenue history that has been coming into the Coal Natural Resource Account as coal proceeds come into the state back all the way to 2007. And I will point you to the last barred chart at the very bottom of the page, because that's our current fiscal year, 2018, that we're in and also shows the current updated revenue amount.

So as you can see, since July of 2017 through February of 2018, the Board -- Coal Natural Resource Account that the Board has access to has received \$1,970,962.22. So that's the revenue that we're talking about, not to be confused with the appropriation, which is the ceiling. That's what's been appropriated to you.

And we've had some discussions -- Department of
Revenue came last time and talked about why there is
reversals of the accrual. But I'm happy to answer any

questions about that.

So I want to point you to the handout that I just had, to go through a little bit more information. So as you can see, as you can see, what we're doing is trying to link those two together so that it helps provide a more clear picture to you of what that budget appropriation, revenue available, cash-on-hand available comes to. And if you go back to this Applications for Consideration, we have to consider that the Board has already made, for this fiscal year, project awards of \$2,805,640. So when you take that away from the revenue available of the 1.9, that leaves us in a shortage of \$834,000 of available revenue to contract those projects.

So let's look at our spreadsheet. I'm going to walk through this. But the first column is -- or the first section is talking about cash and estimated revenues, and I want to point out estimated revenues. We don't know what the rest of the fiscal year looks like, so we can only estimate what that's going to be. So we've used the 2017 fiscal year as a gauge for what those months that haven't received revenue will look like.

So right now we have cash in the account of \$5,530,816. The estimated revenue, meaning the last months of this fiscal year that we haven't received funding for yet -- of course, coal proceeds will continue

to come in and then that interest will come down into the Coal Natural Resource Account -- is estimated at \$1,274,938. Of course, that can fluctuate. It can increase or decrease or approximately be the same. But we don't do estimation of those revenue flow that comes into the account. That's really Department of Revenue's job. So our estimate is based off of what we saw last year. So that's the best tool that we have. So the total amount of cash plus the estimated revenues would equal about \$6,805,754.

So the next section talks about what our obligated accrual amounts are. So these would be -- what our accrual balance is would be those projects that haven't expended all of their dollars but have been awarded contracts and funds through the Coal Board, so they're obligated expenses, as well as anything that would have been accrued. So those are the first two lines that make up that \$3,478,023, as well as the outstanding Fiscal Year '18 contracts that have been awarded this -- by the Coal Board just now during this fiscal year of the \$2,805,640.

So basically what we're saying is we're taking a look at everything that has happened in previous biennium and previous fiscal year and we're adding it to the current fiscal year obligation, because those have already been

awarded, and that's how we come up with those two numbers.

Then, of course, we have pending applications. And so if you look, we actually have a total of requests of about approximately \$1.6 million of pending applications. We can get into those details. And then -- but the pending applications are really, are really limited by the amount of appropriation. So what you'll see there is that there's a number, 597,696, so \$597,696. That is the amount that would be hitting the ceiling of this fiscal year's appropriation.

Let me say it a different way. Of the amount of funds that have been awarded to the Coal Board projects this fiscal year, that \$2.8 million, there is a balance of \$597,000 before you hit your appropriation ceiling.

CHAIRMAN WILLIAMS: Jennifer, just -- if I -- MS. OLSON: Yes.

CHAIRMAN WILLIAMS: Okay. So what we have awarded to date is \$2,805,640, awarded to date. Available appropriation for the remainder of this year is \$597,696.

MS. OLSON: That's correct.

CHAIRMAN WILLIAMS: That's available appropriation. It's not available funds. Available appropriation. So if the Board were to make awards, we cannot exceed that number.

MS. OLSON: So if the Board were to make awards

in excess of \$597,696, you're essentially looking at the next fiscal year, and you haven't reached that fiscal year yet.

CHAIRMAN WILLIAMS: So --

MS. OLSON: Additionally, you haven't had, even had a drop of, a single penny of revenue come in for the next fiscal year.

CHAIRMAN WILLIAMS: Right. So that's something for the Board to try to think on as we move into the process of those applications that have been tabled and the new applications that are before us and the unknown applications that may occur in June.

MS. OLSON: That is correct.

CHAIRMAN WILLIAMS: Correct?

MS. OLSON: That's correct.

CHAIRMAN WILLIAMS: Thank you.

MS. OLSON: So then this -- the Coal Natural Resource Account is also where we get the administrative costs that the Department of Commerce provides as support for the Board. So how do we draw funds, how do we make sure that all of the processes, all of this magic happens? That's these fine folks here and over there. That admin cost actually only pays for two FTE, I should say, so that's really just John and Anne.

But there's a balance of \$64,327 left, which is about

right on par, actually. We've got -- our fiscal year ends June 30th, so as we expend those dollars, that will, that will continue to go down.

And then, of course, part of also the funds that come out of the Coal Natural Resource Account for admin is the audit costs, so Legislative Audit Services has their own individual line item. And the Commerce Department goes through an audit every other year, so that helps pay for that, even though there could be audit things going on on an annual basis to help prepare for that biennial audit.

And, of course, there's -- the last line is

Fiscal Year 2019 grant. Since we aren't there yet, that

line has no, no dollar amount in there because there is no

money.

So the total amount of obligated expenses that the Board has is \$6,946,331. So then what we're going to do, and you can see there's appropriations and expenditures and it repeats that expenditure amount. So when we take the amount of cash and estimated revenues of \$6.8 million and subtract the obligations of \$6.9 million, we come up with a negative amount of \$140,577. And again, it's an estimated revenue amount. So if it goes up, that number will -- well, it will go up. It will become a more positive number. If the revenue estimates come in less favorable, then that number will increase at a negative

trajectory.

So I wanted to walk through that because I think that there was, at the last meeting, a lot of conversation about what was in the account, how much is in the account, what's the difference between revenue and appropriation, what's the definition of available funds. So hopefully this helps to provide some information to the Board so that you're more informed about the budget.

So is there any questions? I think that helps maybe explain a little bit about the summary that we provide at the top.

CHAIRMAN WILLIAMS: Questions from the Board?

BOARD MEMBER SCHAFF: Jennifer, this number includes the MSUB grant in it?

MS. OLSON: That's a great question. And so at the last January meeting, the \$500,000 was awarded to MSUB. So when you look at the March 2018 amount, it has a revenue available -- excuse me, awards made of \$2.8 million. That includes the MSUB amount. So that project was discussed at a February meeting to rescind it. That was tabled and moved to today. So not only do we have the MSUB in that 2.8 million, but then the total amount of funds requested for this board meeting is also the BSEDA MSUB application for 500.

So there's a little duplicativeness there, but we can

1	only we're only reflecting what the Board's decisions
2	are here in regards to awards made and then projects
3	requested. So good question. We don't want to confuse
4	you. So there is a \$500,000 kind of redundancy there.
5	CHAIRMAN WILLIAMS: Any other questions from the
6	Board?
7	Any questions or comments from the public?
8	Okay. Do you have anything else, Jennifer?
9	MS. OLSON: Nope. In regards to budget updates,
10	I do not.
11	CHAIRMAN WILLIAMS: Okay. I will entertain a
12	motion to accept the report on the budget status.
13	BOARD MEMBER SCHAFF: So moved.
14	CHAIRMAN WILLIAMS: And second, please.
15	A BOARD MEMBER: Second.
16	CHAIRMAN WILLIAMS: It's been moved and seconded.
17	Any other discussion?
18	Okay. Vote, please.
19	MS. PICHETTE: Vice-Chair Fitzpatrick.
20	VICE-CHAIR FITZPATRICK: Yes.
21	MS. PICHETTE: Shawn Fredrickson.
22	BOARD MEMBER FREDRICKSON: Yes.
23	MS. PICHETTE: Thank you.
24	Amber Henning.
25	BOARD MEMBER HENNING: Yes.

1 MS. PICHETTE: Marianne Roose.

2 | Tim Schaff.

BOARD MEMBER SCHAFF: Yes.

MS. PICHETTE: Veronica Small-Eastman.

BOARD MEMBER SMALL-EASTMAN: Yes.

MS. PICHETTE: Chairman Williams.

CHAIRMAN WILLIAMS: Yes.

Thank you.

The next item is project updates.

MS. PICHETTE: Mr. Chairman, I would just direct the Board's attention to, there's a letter in your packet from the Musselshell County, and just to make sure there's no confusion, the letter from Musselshell County is just giving us an update and letting us know that they may come in for an extension request but are not at this time. So you don't need to take any action on that. But we wanted to make sure you had that communication from them in your information.

And then throughout that section of your binder, you have some other pieces of communication that have come directed to the Board.

Then also you have two spreadsheets in that section with project updates. And the second one is your 2019 awards from your June meeting. Those are your 2019 biennium projects. We're in the process of routing

all of those contracts. We have two that are getting us additional information, but the rest, you should be seeing soon if you have not already if you happen to also be one of the applicants.

And then you'll also see we have quite a few projects on the list that's blue and gray at the top. Those are the older projects. You'll see that we've got quite a few that are coming along and we've had some draws, we've got a few that are getting ready to close. You also have a letter in your packet regarding one of these from the Northern Cheyenne Utilities Commission returning or -- one of their grants for their software program. So that will be reflected on your next spreadsheet, that that will no longer be an open project.

CHAIRMAN WILLIAMS: Are there any items that we need to act on in there?

MS. PICHETTE: Not at this time. It will just be the heads-up on Musselshell County if they come in later. Theirs does not expire until 2019, but they were just giving us an advance heads-up.

Oh. And it does not require action, but just to make sure you noticed that, in all of the communication, you do have some emails that were received in the board email box regarding the MSUB award. So to make sure that you saw that communication as well, we printed you the emails from

constituents.

A STAFF MEMBER: And just also to add in that same section, you'll see an email from Joe Purcell regarding the Hardin, City of Hardin application as well.

CHAIRMAN WILLIAMS: Okay. That was to put the item back on the active discussion list? Okay.

Okay. Are there any other issues with that?

Any discussion from the Board? Any questions from the Board?

Okay. Since there's no action required, we'll move to the next item, which is our old business. And at our telephone conference call, what was discussed with, with the MSUB application was to consider -- And I indicated at the conference call that we would have this as the first item of business; that we would consider suspending the award to MSU Billings, as has been recommended by our staff attorney, we would consider allowing Big Sky Economic Development to submit the MSU Billings application on behalf of the MSU Billings Foundation, and we would consider approval of the Big Sky Economic Development application, to include the waiver of the 45-day rule. And that's the action that the Board took at the conference call.

So having said that, then I will ask the staff to provide us an update.

MS. PICHETTE: Mr. Chair, we did receive an application from Big Sky Economic Development for the MSUB Yellowstone Science and Allied Health Building in the amount of \$500,000. The applicant is requesting \$500,000, of a total project cost of \$15 million, in Coal Board funds to complete the renovation of the 70-year-old science facility at MSU Billings. The request to the Board is 3 percent of the project cost.

The applicant has stated that renovation of the older science building will allow for more classroom space, which will directly serve the employers and residents of coal counties by providing training opportunities. The applicant states that while the applicant has changed for this project, the application is the same as the one previously submitted by MSU Billings to the Coal Board.

CHAIRMAN WILLIAMS: Okay. We'll go right through this I think as we have other -- this is a little unusual, and we'll go right through this as we have other applications, and then after the presentation, then we'll go through those action items as addressed in the conference call. Does that fit with everything?

Amy, is that okay? Does that sound like where we should be moving?

I'm wondering, probably what I'll ask, Amy, is for -after -- I'll have it introduced and have MSUB -- give the

opportunity for presentation, and Big Sky. Perhaps you could do it together, MSU and Big Sky Development could do the, any discussion at that time, and then turn it over for questions from the, from the Board, and then go through the action items. Okay? Does that sound okay?

Okay. A little unusual, but I think we'll -- You'll have to help me get there. Okay?

Okay. Thank you. Let's go ahead with that. So go ahead, introduce the application, please. Big Sky.

MS. PICHETTE: No. 0848, Big Sky Economic Development, MSUB Yellowstone Science and Allied Health Building, \$500,000. The applicant is requesting \$500,000, of a total project cost of \$15 million, in Coal Board funds to complete the renovation of the 70-year-old science facility at MSU Billings. The request to the Board is 3 percent of the project cost.

The applicant has stated that renovation of the older science building will allow for more classroom space, which will directly serve the employers and residents of coal counties by providing training opportunities.

MS. LEHM: Good morning, Chairman and -- CHAIRMAN WILLIAMS: Good morning.

MS. LEHM: -- Board Members. Dianne Lehm with Big Sky Economic Development. I know that we have talked about this project on, on many occasions. I do want to

let you know since our February 9th meeting, we have done and completed all of the environmental review checklists and information that was required of us. I do have copies of that to pass out to the Board and to the staff, if that's okay with you, just to give you that information.

Okay. And I will let Robbie talk about the project as I do that.

ROBBIE: The environmental assessment, we did a public hearing. We did public notice of that hearing. And there was a resolution by Big Sky Economic Development to approve the environmental assessment, so we believe we have met all the requirements for that particular item on the grant.

Any questions?

I've got a couple questions. One of the things that
I'm interested in hearing is an update on the funding that
is currently available. If you've got a \$15 million
project, could you give us an update on where you are in
the process of obtaining those funds, please.

MR. KENNEDY: Mr. Chairman, Members of the Committee, my name is Bill Kennedy. I'm the president and CEO of Montana State University Billings Foundation. Just an update of where we are today.

When we first started and we applied in this process,

we were at \$2.1 million. We are today at \$3.1 million. With the additional Coal Board money, we would be at \$3.6 million. We are working right now on some other grants. We did have a grant, because of the delay, to the M.J. Murdock that has been delayed until May because they're waiting for the outcome of the, of this decision.

So at -- we're getting close and we're ready to move forward. Once the \$15 million is reached -- or the \$5 million on our match, the dollars, the \$10 million will be released from the State, we will start the process.

Also, the delay of this, the \$2.1 million of student fees for this project was not approved by the Board of Regents. It was, it was withdrawn. And after the Coal Board and all of this, and once we reach the total of \$5 million match, the additional \$2.1 million will go back to the Board of Regents. The scope of the project then will move to \$17.1 million. And then at that time we will go with the State A & E Department through State Administration and go -- then we'll have for you, we'll come back and give you the timeline on the planning process and having the plans for you. And then when -- We will go out to bid, and then at that time the in ground and the 16 months for the construction of the project.

So all of this -- as you can see, a lot of things are, are hinged on the decision today.

CHAIRMAN WILLIAMS: Mr. Kennedy, what -- when you say once you obtain this. What's your earliest that you think that you'll go out for bid and what would be the date that you would begin construction?

MR. KENNEDY: I would love to go out to bid by early winter, looking at December of 2018. And that's if -- Mr. Chairman, that's if the stars all line up and everything works correctly. The delay of a couple months on, on this has, has delayed another grant, which has pushed us back a little bit. We were hoping to -- we're hoping that, by early summer to have the full 5 million match and to go forward. But it does take six-and-a-half months to do all the drawings for the building.

CHAIRMAN WILLIAMS: So you're looking at December 2018 to go out for bid; is that correct?

MR. KENNEDY: Hopefully. December is the soonest we could go out for bid on this project.

CHAIRMAN WILLIAMS: That would be earliest. And the earliest point of beginning construction would be when?

MR. KENNEDY: Would be next spring.

CHAIRMAN WILLIAMS: It would be spring of 2019?

MR. KENNEDY: 2019. So what we would have,
Mr. Chairman, is with 2019, we will have -- once we go out
to bid, and you all know the construction process, we will

have the, the fee schedule.

What we need for the, for the State of Montana is to have the documentation that the money has been allocated. The drawdown will come as we hit the fee schedule for the project. So there is a delay on us working with the Department and drawing the dollars down.

Any other questions?

CHAIRMAN WILLIAMS: So the earliest you could begin construction would be the spring of 2019, and you would be looking for some draw from the Coal Board...

MR. KENNEDY: As the fee schedule goes forward, the, the drawdown as soon as we get the fee schedule. I can't, I can't pull that out of the air because I have to tell you it's all dependent on the contractor and the fee schedule as they start pulling down. But as soon as we have the fee schedule and the construction project starts, we can start working with the Department with the paperwork and the drawdown for the dollars.

CHAIRMAN WILLIAMS: So I would anticipate probably earliest would be sometime in 2019.

MR. KENNEDY: Correct.

CHAIRMAN WILLIAMS: That you would start to draw.

MR. KENNEDY: Yes. And there is a -- just, just so you know, there is a caveat on this whole thing. The \$10 million is in long-range planning. The legislative

session begins January 19th -- of 2019. We need to have it matched and on the books and ready to go before the next legislative session. So timing is everything.

CHAIRMAN WILLIAMS: Okay. Thank you.

I have some other concerns, but I'll -- Any other
discussion from the Board?

UNIDENTIFIED SPEAKER: (Inaudible).

CHAIRMAN WILLIAMS: Okay. Thank you.

Comments from the public on this application?

REPRESENTATIVE ESSMANN: Mr. Chairman, Members of the Coal Board, my name is Jeff Essmann. I represent House District 54, and I'm going to keep my comments brief and try to give a little historical context for this grant request and my support for it.

In 1980, I was a young 27-year-old whippersnapper working for the Montana Power Company that was spending a lot of time down in Colstrip, because at that time Colstrip Units 3 and 4 were, you know, just coming out of the ground. And I was tasked with responsibility by the Montana Power Company, for whom I worked, to shepherd the effort to subdivide additional subdivisions in Colstrip to provide housing for the workers to build those units and then live and operate the mines and the power plants. So I spent a lot of time down at Colstrip and Forsyth in that effort.

At that time, you know, the future of the coal industry and the coal communities in this state was very bright, you know, and shiny and we were on the move. I would contrast that with today, where, you know, I think any characterization of that climate other than uncertain would be incorrect.

So, you know, I understand the -- having served in the Legislature, I understand the difficult task you always have to how to apportion available money. That's a task that falls hard on everybody, and I thank you for your efforts in doing that. But I want to encourage you to, to keep this project moving forward for a couple of reasons.

Number one, I served as part of a community task force most of this past year trying to -- you know, working on focusing this unit of the University System on meeting the needs of the region. I, I think we came up with a good work product. I believe the unit, going forward, you know, will be focused on providing educators for the schools in the region, it will be focused on providing medical technicians for the health care units in this region, and it will be focused on, on providing staff in business and science and technology for the employees -- employers in the region.

So despite the uncertainty facing the coal industry and the coal communities -- And I consider Billings a coal

community too. We have benefited greatly from the economic engine that the coal industry has been. I don't think a lot of people in the state and -- and my own community, unfortunately, don't realize the impact that the decline in the coal industry will have on this community. I really don't. But it will be negative.

I would ask you to continue to support this project.

I think it will be a good legacy for the children in this community, and in my case grandchildren, as they need jobs in these fields going forward so they can remain in this region.

So thank you very much for your time. If I may get your permission, I'm going to leave because I've got business affairs in Big Horn County to attend to.

CHAIRMAN WILLIAMS: Okay. Thank you, Representative.

REPRESENTATIVE ESSMANN: Thank you.

CHAIRMAN WILLIAMS: Other comments?

MR. ARVESCHOUG: Chairman Williams, Members of the Committee, Steve Arveschoug, executive director for Big Sky Economic Development. I'm going to kind of put my public hat on in this, if that's even possible in this application process.

Our board of directors, we have 33 board of directors. We have a public-private partnership. And they were very

unanimous in their support to move forward in this application and support of the University. And I'll talk a little bit about the commitment that we've made toward this process and will continue to make on an ongoing basis to make sure that this is successful for our community and the fundraising is, is completed. And you have that, that pledge from me both personally and in representation of our organization.

But I want to start by saying that we, we feel very strongly, as an economic development organization, about the partnership that we continue to try and strengthen and build. And I think, Chairman Williams, it was maybe two years ago, we took a busload of our board members down to Colstrip at the invitation of Southeast Montana Development Corporation. Because we really wanted to be on the ground and talk with you about what your community is experiencing, what's happening, and kind of the in-ground-zero, as it were, with the, with the challenges.

That meeting led to what we now refer to as our Coal Country Coalition. It's a partnership of Southeast Montana Development Corporation, Snowy Mountain, Beartooth RC&D, and Big Sky Economic Development. And with your help, with the Coal Board's help, we initiated an impact study. The reason we're standing here today talking about an investment in our university has a lot to

do with what we discovered in that study, which we probably in some part knew already, that we're connected. We're connected because of that coal industry.

That connection is no more stronger than it is with our regional university. That regional university connects us beyond our economy. It connects us in an education way. Students from throughout the region have an opportunity to attend school there, and they need and deserve a state-of-the-art science facility. And so this investment that you're making in partnership with us and other organizations is really an investment in that partnership that we want to continue to strengthen and that we've all been a part of.

Big Sky Economic Development has committed \$200,000, and then we went out to the community and started talking to our business community, and we were able to get another \$100,000. Our pledge to the University is just in excess of \$300,000. We've got some more work to do, and we're hopeful to bring to the table additional contribution toward this project. Myself and other staff people are committed to continuing to work with the Foundation to see this through.

In, in my opinion and in closing, Jeff's comments
earlier about kind of the uncertainties that are -- that
you all live with on a daily basis with respect to the

coal industry probably makes this investment, this long-term investment in education more important than it has ever been before. So it's in that context and in the context of our willingness to continue to partner with you and with our university and our communities throughout the region that we would ask for your continued support of this project.

Thank you.

CHAIRMAN WILLIAMS: Thank you.

MAYOR COLE: Mr. Chairman, Committee Members, my name is Bill Cole, and I am the mayor of Billings,

Montana. Steve Arveschoug mentioned the word

"partnership," and I think that's a critical one.

Billings wants to be a great city, and we know that a great city requires a great university, and that requires partnership.

We want to keep our kids here. We know -- we have to fill about 15,000 jobs in the next 10 years because of attrition and in growth, and that means attracting the young, people between 20 and 40 in particular. So the problem, though, is that both Billings and MSUB need to strengthen our core competency, our reputation in technology and in science.

Here's an example that was brought home to me just yesterday and earlier this week. I had meetings with the

leadership of Billings Clinic and St. Vincent's. Now, those are the two largest health care facilities in the state of Montana. Billings Clinic employs 41,000 -- or, I'm sorry, 4100 employees, mostly here in Yellowstone County but also around the state. My understanding is that Billings Clinic employees pay about 9 percent of the property taxes either in Billings or in Yellowstone County.

24

25

But they have a problem. They are in the constant hunt for physicians and nurses and techs, who can live anywhere they want. The jobs are out there anyplace. And so they and we have to find a reason why they will say we will move to Billings, Montana. It's essential to their future, those institutions' future, and it's essential to Right now, at any given time, we have a our future. deficit of approximately 100 physicians between the Clinic, St. V's, RiverStone, and private health care providers in Billings, roughly 200 nurses, and I don't know how many rad techs and other technology workers. Reputation, competency in science, a good university is critical to attracting those people. And they know that brand and identity and reputation of a community all goes together.

So the City of Billings recognizes that, and, in order to strengthen this partnership and build our core

competency in science and tech, last year committed \$50,000 of scarce public resources to this project -- that money has already gone out -- because we recognize that as MSU prospers, Billings will prosper.

Personally, my wife and I have toured the, the existing science building and made a similar contribution of \$50,000 to this effort because we've seen the existing facility and we know the problems that are there. If I were a parent and I were considering sending my children to MSUB and science was going to be any part of their curriculum, I would be very, very concerned. And that's a problem for MSUB, but it's also a problem for Billings.

So on behalf of the City and myself and my wife, I would just encourage you to look favorably on this grant application.

Thank you very much.

CHAIRMAN WILLIAMS: Thank you, Mayor.

Other comments from the public?

MS. BIRD WILLIAMS: Mr. Chairman, Members of the Committee. My name is Jody Bird Williams. I'm a resident of Colstrip. I'm a former member of the Montana House of Representatives, a former U of M Advisory Council member during that time. And I have some questions. I wasn't at the last meeting, I don't know what was discussed, but I have some questions.

I know enrollment is down considerably at U of M, and they just hired a bright, new, young guy that I think's probably going to do a great job there. And I know student costs are up and student debt is horrible. So I'm thinking about these things. And I'm thinking education is a wonderful thing. My family are a lot of educators.

And I think I heard Mr. Kennedy say timing is everything, and that's exactly what I woke up thinking this morning. And I thought is, is this a little bit ahead of its time? Because enrollment numbers are down, costs of going to school are up, and student debt is so high. And our state is full of aging people. Families are not replacing the aging. They aren't having as many children. So how many students are we going to have available? Is it going to match the cost, the investment? I'm thinking about all these things. I'm being practical. And I'm not against the idea, because I think it's a wonderful idea. But I'm just wondering about the timing.

And it also kind of bugs me. My first committee I ever staffed in Legislature was Appropriations, and I also served on Taxation, Judiciary, and Natural Resources. And it, it bothers me to see one group get the lion's share and there's a lot of lambs out there in all the counties in eastern Montana. We heard people talk about ambulances and fire trucks and hospital elevators and boilers for

hospitals. And those things are all needful. The smaller counties are talking about merging together because they don't have enough money. The smaller schools are talking. Our school district, the Colstrip School District, we're going to be in bad, bad shape.

And so I'm wondering, if enrollments are down all the way through the school system, all the costs are going up, is it the right time? That's my only question. But I applaud the idea.

And I thank you for your time.

CHAIRMAN WILLIAMS: Thank you.

Other questions, comments?

MR. LARSEN: Chairman, thank you. I'm

Ron Larsen, currently chairman -- or currently chancellor at MSU Billings. As many of you know, my time at MSU Billings is coming to an end. There was a search for the position and they have hired Daniel Edelman, who will start in May. He contacted me yesterday and said is there anything he can do to try to make sure this goes forward, and I said, you know, we'll do the best we can.

It has been an amazing opportunity for me to be a part of MSU Billings. One of the moments that stands out to me, we were having a, an enrollment management meeting, and there was some question about who is our focus. And there had been, at some point before my time, some

discussion on focusing on the Billings area high schools, and I pushed back on that and said, "We are the university that serves eastern Montana, and we're not giving that away." And I was very pleased to see that the people around the table were, were absolutely happy to have that reaffirmed to them, that MSU Billings is the institution that serves eastern Montana. And that makes us the institution of coal country.

So I'm kind of humbled to be standing here with these folks coming up and talking about the contributions they have made. We are so thankful to Big Sky Economic Development, and we're so thankful to the City and everyone else who has contributed to this project. We are getting close. We're not quite done. And the timing is truly critical.

So thank you. It has been my honor to be a part of this. I thank you for what you're going to do, and I hope we can get it done. Thank you.

CHAIRMAN WILLIAMS: Thank you.

COMMISSIONER BERRY: I'm sorry, Mr. Chair, here I am again, Members of the Board. Commissioner Berry from Musselshell County, former representative, House District 40. And I was in the House of Representatives when this bill came before us, and I did vote for the \$10 million knowing that the community had to raise

5 million.

And I'm not saying this board should award it, and I'm not saying this board should not award it. But that was the process of our -- or that was the intent of our legislation as I remember, which is getting harder and harder to do at my age. But it was our intent that the Legislature would appropriate \$10 million and the community was to raise 5 million to get this project done. So I just wanted a little bit of reminder, a little bit of history of what was behind this. And I'm not saying what the Board should do or shouldn't do, but that's just a little bit of history.

Thank you, sir. Thank you, Members of the Board.

CHAIRMAN WILLIAMS: Thank you, Commissioner.

MR. KENNEDY: Mr. Chair, Members of the Committee. One thing I do want to bring up is I'm pretty sure that Board Member Roose is on the line, I just don't think she -- the star-2 and can get through, so you may want to check on that.

A couple of things. This process has been on the books for a while. The Legislature has approved of it. The Legislature talked about it last session. We looked at a bonding bill. The bonding bill went through 10 votes. First time I've seen that in the Legislature in my 40 years of working the Legislature.

I am a educator, taught in Colstrip. Taught your daughter, John, back in '81 through '84. I was there during the boom of the 3 and 4. We were trailer trash on the hill. We knew that. We were 7600 people strong. Now we're down to about 2200 in Colstrip. I was there during the, during the growth and the building of the \$13 million school in Colstrip, which has gone from a Class A school now down to B and, and possibly could drop below that.

Everyone in Colstrip came to Billings to shop, came to Billings to, a lot of them to doctor. My dentist was in Colstrip, and I moved to Billings and my dentist recommended me to the dentist here. We do a lot of things together in coal country. And just to remind Members, Yellowstone County does have a coal mine in it, Signal Peak Mine. And we appreciated, as I was county commissioner, you allocated some dollars for the, for the mine road for us.

But every one of those school districts in southeastern Montana is dependent on educators and the sciences. And with that, as I talked to Commissioner Small-Eastman, and the chancellor and I made a trip down to Lame Deer and visited about educators, it's needed. I read in the paper all the time -- and school districts, we held a reception and talked to teachers about STEM. This weekend for all of southeastern Montana, we have the

science expo.

Education, science, and to be able to provide instructors all over eastern Montana throughout coal country is very important. Mayor, you talked to us when we were down in Colstrip about keeping people in your community. You need educators in Colstrip. You need to be able to educate the students so people stay. All of that is very important.

This building -- And people say, well, wait a little bit. You can't wait any longer. It's been on the docket for over six years. The head count at the University is over 4400 students. We have students from all over southeastern Montana. We have students from Eastern Montana College, Montana State University Billings, that are in each of your communities, coal country. We are coal country. The one thing that people say is Billings won't be affected like the other communities. That's wrong.

A few years ago, we went to bat for the Southeastern Montana Experimental Station because they shut it down over in Huntley. Why? There's a \$17 million cash crop of sugar beets in this valley that affects Billings, Montana, and Main Street. Coal country affects Billings, Montana, and Main Street. The University reaches out and its tentacles are all over coal country and around the state

of Montana.

So as we go forward and we talk about 3 percent of this budget is building -- rebuilding a 70-year-old building that's not adequate to serve the needs of education, of the sciences.

And the last thing I want to talk about is the superintendent over in Hardin talked about his championship teams, and I want to congratulate them. Lodge Grass went to State.

Our athletics, our training, our nursing program that will be housed, some of it will be housed in this building, all reach out to every one of the communities. This is very important. I think we've delayed long enough. It's time to move forward. And we would invite you for the groundbreaking and making sure that you're a part of this.

We really appreciate your support today. Thank you.

CHAIRMAN WILLIAMS: Okay. Thank you.

Other comments from the public?

Okay. Discussion from the Board.

I'll make a couple comments on it. I support this.

I've, I've always supported what you're attempting to do

and what you will accomplish. My reluctance and my vote

against it was the fact it was \$500,000, a half a million

dollars. That was my issue, and it has been my issue all

along on this.

This is a very large amount of money. And when we have the responsibility as a board on taking a look at the statutory requirements that are placed on this board, one of the things right up at the top of the line, and Representative Berry is here, but Representative Essmann was here, would the need of the proposed project enable the applicant to adequately address to provide for governmental services and facilities that are needed as a direct consequence of an increase or decrease in coal development or in the consumption of coal by a coal using energy complex?

Those are the rules that we -- that was the first, that's the first rule that we're required to follow, the first statute. And for us to fund this at a half million dollars I feel violates that statute, though I do support it, at probably a lesser amount of money than what you've requested.

You know, we lose sight of the fact of the value of what coal has been to our communities throughout Montana. Everybody has benefited as a result. You know, and the one tax alone that is collected on coal, the severance tax, over \$2 billion has been allocated out across the state of Montana as a result of the mining and the power generation that occurs in coal country, those folks that

live and work there. The process that we're going through and have been going through for 40-plus years is to assist those communities in the impact associated with that.

This board has been very responsive over the many, many years that -- We get a small percentage of that \$2.1 billion that's been collected. We've been very responsive to allocating that back -- a large portion of it has gone back to education. Over 30 percent has gone back to education, of the funds that we work with. But it has gone to the school districts within the coal-impacted communities. It has gone to Hardin, it has gone to Lodge Grass, it has gone to Lame Deer, it has gone to Colstrip, it has gone to Forsyth, those school districts that is required by law for them to provide education.

Some has gone into the higher education. Some has gone -- I don't know what, if anything -- I believe something has gone back into MSU. And as far as my support on it, you're right, Mr. Kennedy, you taught my daughter there. She also graduated from Eastern. And so did my son and grandson. You know, so I have supported Eastern individually and I support as a board all of the educational processes that we've been able to work with in coal-impacted communities. Increase or decrease in coal development, those are the statutes that is placed before us that we're required to follow.

And while I support this, I don't support it at the half-million-dollar level. And those are my thoughts. But I do support it. And I support your effort. So that's, that's my position on it. And I think if I back off from that, I feel that I do a sacrifice against the integrity of what I am involved with on my responsibilities. I've been involved with this board for over 14 years as a member.

Prior to that, I appeared before this board as a representative of an impacted community, of people that live and work in the coal industry. And this was designed and set up to address those folks and to work with them on the quality of life that they have on providing that tremendous resource back across the state of Montana. Education, infrastructure, police protection, fire protection, medical, all those items that add to the quality of life that we're involved with in coal country place value on existence. So that's -- you know, it's not that I don't support it. I do. But not at the current level.

Now, having said that --

VICE-CHAIR FITZPATRICK: Mr. Chairman, I have a comment.

CHAIRMAN WILLIAMS: Yes.

VICE-CHAIR FITZPATRICK: So the record reflects

in my book here we gave \$500,000 to Colstrip for Phase 1 water; we gave \$500,000 to Representative Berry -- Commissioner Berry's school; we gave \$300,000 to Rosebud County. That's the record I have right in front of me today.

I'm Sidney Fitzpatrick, Big Horn County Commissioner, for the ones that don't know me that are sitting in the audience. I'm a tribal member from the Crow Tribe. My constituents are the Crow People and the Cheyenne People in the Busby area. They're my constituents. That's who I speak for today.

When this was under scrutiny -- This is the third time now. The second time, I heard the presentation when we were at MSUB with the counselor, with bringing counselors, training counselors in the LE building for my people. I want to have them trained counselors so they're not looked upon when they come to this beautiful city. Because I'll tell you what, bigotry is alive and well today here. It is. That's the truth.

So if I sit here heading to 60 years of age, being sober for almost 40 years, and I'm going to, I'm going to make a motion to approve this for my constituency, also remember I have three coal mines in Big Horn County.

Three. And, you know, I'll tell you something, every time when I came to that podium -- I've been in this seat

eight years now. Every time when I came to that podium when I asked for money to this board in the past, we came up with local effort and the county paid half of the project. Half. If we asked for 100,000, we paid 50,000. If we ask for half a million, we'll pay \$250,000.

But when I go back and they want to talk local effort, who makes the motion to give 400 percent funding to Musselshell County? This man speaking right here.

Where's the local effort?

We're talking -- I'm talking for my constituents. So what do you see up here right now? Look up here. What do you see? Who's on one side and who's on the other? You know, when I go to church in Hardin, segregation is still alive and well there. One side is my people and the other side's that people. When are we going to reconcile that?

So I have four sons, three daughters, 18 grandsons, 17 granddaughters, and they're going to come to this university. That's the legacy Mr. Essmann was talking about. So when you want to say reflects, it's all right here in the book. So what's different if we award \$500,000 today? It's not the first time this board gave \$500,000.

Thank you.

CHAIRMAN WILLIAMS: Okay. Amy, why don't you go through the -- where we are as far as the issues.

Anne, did you have something? 1 2 MS. PICHETTE: Mr. Chairman, we believe Marianne is on the phone while you're having board discussion. 3 4 just believe she's having technical difficulties. 5 CHAIRMAN WILLIAMS: Okav. 6 MS. PICHETTE: If we could take a moment while 7 you're still in board discussion to try to resolve that in 8 case --9 CHAIRMAN WILLIAMS: Okay. 10 MS. PICHETTE: -- she has comments. 11 CHAIRMAN WILLIAMS: Yeah. 12 MS. PICHETTE: Can we do that? 13 CHAIRMAN WILLIAMS: Yeah. 14 (Off the record briefly.) CHAIRMAN WILLIAMS: Okay. Let's go back into 15 16 session here. And Amy, if you would just describe the 17 issues that bring us to this point. So... 18 MS. BARNES: For the record, my name is 19 Amy Barnes. I'm legal counsel for the Coal Board. 20 So the issue that we have is there was a, a grant that 21 was awarded to MSU Billings back in January at the 22 quarterly meeting for \$500,000. But the problem is there 23 is an administrative rule that the Coal Board has. 24 Rule No. 8.101.306, and it is in regard to state agencies.

And MSU Billings is a state agency, and once you actually

25

read through the rule, you can figure out that this project that MSUB has brought forth as a state agency is not actually an eligible project.

And so it was my recommendation that the Coal Board rescind that grant award, and that's what I recommended at the February conference call, and that's where we're still at today. The actual award is still in place. It was not rescinded at that conference call.

So I believe there are two different action items that are actually under item 7A. We've got the actual MSUB grant award that was awarded that we need to take action on, and then the other one is the BSEDA grant application that you should also take action on.

CHAIRMAN WILLIAMS: Okay. Thank you. I was just looking for the -- that number is --

MS. BARNES: The ARM is 8.101.306.

CHAIRMAN WILLIAMS: What's the application number?

MS. PICHETTE: Chairman, this is Anne. The application number for MSU Billings that was previously awarded is No. 0832 --

CHAIRMAN WILLIAMS: Okay.

MS. PICHETTE: -- which was the awarded one. The current new application from Big Sky Economic Development for the MSU Billings building project is No. 0848.

1 CHAIRMAN WILLIAMS: Okay. Thank you. 2 Okay. Okay, where we're at is I will entertain a 3 motion to suspend application 832, the award that was made 4 to MSU Billings. 5 MS. BARNES: Chairman, I would recommend that you 6 rescind it instead of suspend. Suspend sounds like you're 7 doing it for a certain period of time. 8 CHAIRMAN WILLIAMS: A motion to rescind? Okay. 9 A motion to rescind. 10 A BOARD MEMBER: So moved. 11 CHAIRMAN WILLIAMS: And second? 12 A BOARD MEMBER: Second. CHAIRMAN WILLIAMS: It's been moved and seconded. 13 14 Discussion? BOARD MEMBER ROOSE: This is Marianne. I have a 15 16 question. 17 CHAIRMAN WILLIAMS: Yes. BOARD MEMBER ROOSE: Will the vote to rescind 18 19 remove the dollar amount and that request would have to be 20 made all over again? 21 CHAIRMAN WILLIAMS: That's correct. 22 Other discussion? 23 BOARD MEMBER ROOSE: One more comment. Yes, we 24 voted to -- that 500,000 is actually a part of the 25 allocated 2 million? The 500,000 was included in the

amount that Jennifer spoke of earlier; right?

CHAIRMAN WILLIAMS: That's correct.

BOARD MEMBER ROOSE: So my question, John, is then would we have to -- Actually, I have two questions. Would the process then be to approve the grant application by the development organization and then vote again on a dollar amount? I'm not real sure -- don't understand exactly why we're rescinding the 500,000.

\$500,000. That's what we talked about at the telephone conference call. We said we would rescind it in order for them to move forward with the new -- Big Sky Economic Development to move forward with the new application of 848.

BOARD MEMBER ROOSE: Which will include their request for 500,000.

CHAIRMAN WILLIAMS: That's correct.

BOARD MEMBER ROOSE: Thank you.

CHAIRMAN WILLIAMS: Okay. End of discussion on rescinding 832. Any comments from the public?

MR. KENNEDY: Mr. Chairman, Bill Kennedy,
MSU Billings Foundation. What I would ask is that you do
these all as one motion, that you approve and you rescind
at the same time, just like you did in the January
meeting.

1	CHAIRMAN WILLIAMS: Comments?
2	Amy, any problem with what we're doing?
3	MS. OLSON: Mr. Chairman, can I make a comment?
4	CHAIRMAN WILLIAMS: Please.
5	MS. OLSON: As to Mr. Kennedy's suggestion, I
6	think we did have that discussion at the last conference
7	meeting, and I think that it just makes things clearer as
8	we go forward if we just take things piece by piece as the
9	current motion is set on the table and then move forward
10	to the other, to the other motion, just so that we're all
11	clear and that we're all on one page on what exactly is
12	happening.
13	CHAIRMAN WILLIAMS: Okay. I agree.
14	Any other discussion?
15	Okay. Vote, please.
16	MS. PICHETTE: Vice-Chair Fitzpatrick.
17	VICE-CHAIR FITZPATRICK: Yes.
18	MS. PICHETTE: Shawn Fredrickson.
19	BOARD MEMBER FREDRICKSON: Yes.
20	MS. PICHETTE: Amber Henning.
21	BOARD MEMBER HENNING: Yes.
22	MS. PICHETTE: Marianne Roose.
23	BOARD MEMBER ROOSE: Yes.
24	MS. PICHETTE: Tim Schaff.
25	BOARD MEMBER SCHAFF: Yes.

1	MS. PICHETTE: Veronica Small-Eastman.
2	BOARD MEMBER SMALL-EASTMAN: Yes.
3	MS. PICHETTE: Chairman Williams.
4	CHAIRMAN WILLIAMS: Yes.
5	Okay, that's passed, to rescind 832, MSU Billings at
6	\$500,000.
7	Next item, then, is to, is to address the Big Sky
8	Economic Development application, 848, and the requested
9	amount is \$500,000. I will entertain a motion.
10	VICE-CHAIR FITZPATRICK: I so move.
11	CHAIRMAN WILLIAMS: And second?
12	BOARD MEMBER ROOSE: This is Marianne. I'll
13	second.
14	CHAIRMAN WILLIAMS: It's been moved and seconded.
15	Discussion?
16	MS. OLSON: Mr. Chairman, I do have a question.
17	Did we not also have to vote on suspending the 45-day rule
18	to allow this application?
19	CHAIRMAN WILLIAMS: We would probably do that
20	right after this.
21	MS. OLSON: All right. That works. Oh, we did
22	that in February.
23	CHAIRMAN WILLIAMS: Oh, we did it in February?
24	Are we okay with the 45 days? Okay.
25	MS. OLSON: Excellent.

CHAIRMAN WILLIAMS: So then all that we have to 1 2 do is this; is that right? So we're okay with that? 3 MS. OLSON: Excellent. Just for clarification, you voted for the BSEDA application to have a waiver of 4 5 the 45-day application rule as well as the -- you gave 6 them a waiver of the 10-day rule as well. The additional 7 environmental information that they just submitted --8 CHAIRMAN WILLIAMS: Right. MS. OLSON: -- was already included as part of 9 10 that --11 CHAIRMAN WILLIAMS: Okav. 12 MS. OLSON: -- decision that was made in 13 February. 14 CHAIRMAN WILLIAMS: Okay. Very good. Okay. Any other discussion, Board? 15 16 Public? BOARD MEMBER ROOSE: This is Marianne again. 17 18 CHAIRMAN WILLIAMS: Yes. 19 BOARD MEMBER ROOSE: I quess I -- after listening 20 to all of these comments, I just would like to say, as a 21 board member listening to everyone, I believe this does 22 affect everyone clear across the state and that the coal 23 communities, of which Billings is a part of, will greatly 24 benefit on behalf of, of all of Montana and that it is for 25 education and it is an investment in infrastructure. And

1 I believe it is a good investment of the Coal Board's 2 dollars. 3 So thank you. 4 CHAIRMAN WILLIAMS: Other discussion? 5 Okay. Vote please. 6 MS. PICHETTE: Vice-Chair Fitzpatrick. 7 VICE-CHAIR FITZPATRICK: Yes. 8 MS. PICHETTE: Shawn Fredrickson. 9 BOARD MEMBER FREDRICKSON: Yes. 10 MS. PICHETTE: Amber Henning. 11 BOARD MEMBER HENNING: Yes. 12 MS. PICHETTE: Marianne Roose. 13 BOARD MEMBER ROOSE: Yes. 14 MS. PICHETTE: Tim Schaff. 15 BOARD MEMBER SCHAFF: Yes. 16 MS. PICHETTE: Veronica Small-Eastman. 17 BOARD MEMBER SMALL-EASTMAN: Yes. 18 MS. PICHETTE: Chairman Williams. 19 CHAIRMAN WILLIAMS: No. 20 Okay. Thank you. Motion is passed on the Big Sky 21 Economic Development 848. And thank you all for all your 22 comments. I appreciate it very much. 23 MR. KENNEDY: Mr. Chairman, on behalf of Montana 24 State University Billings, we would like to thank all of

It's been a long, drawn-out process, but thank you

25

you.

all very much.

CHAIRMAN WILLIAMS: Okay. Thank you.

Okay. We're going to take about a 10-minute break, everybody.

(Recess.)

CHAIRMAN WILLIAMS: Okay, Board, I'll call the meeting back to order.

Here's my suggestion to the Board, is we move into all of the -- Well, let's see. First of all, we've got to do the environmental things, don't we? That's the first thing. Then we'll go into the tabled applications. So let's -- these were the environmental issues that were awarded at the January meeting.

So Anne.

MS. PICHETTE: Thank you, Mr. Chairman. At the January meeting, some projects were awarded but no environmental action was taken during that awarding, so we need to go back and look at environmental on the ones that were awarded at the previous meeting.

You may recall from orientation, we kind of went through what some of the options are, what communities need to provide -- what applicants need to provide, and what the options are for the Board regarding the environmental process.

CHAIRMAN WILLIAMS: Could you walk us through

that one by one, those issues, the ones that we need to address.

MS. PICHETTE: Yes, Mr. Chairman. I don't know if any of you have your December binders with you. It would be on the agenda, but I'll list them each by number and in order.

No. 0833, which was Musselshell County, is complete.

No. 0834, Golden Valley County --

CHAIRMAN WILLIAMS: Wait a second. Do we have to do anything on 833?

MS. PICHETTE: No. It was -- they had all their complete information.

CHAIRMAN WILLIAMS: Okay. Everything was complete. Okay.

MS. PICHETTE: No. 0834, the Golden Valley County Jaws of Life purchase, they provided some meeting minutes. The meeting minutes did not show an environmental determination was made as is required. And that was the only piece of documentation we received for the Jaws of Life purchase.

CHAIRMAN WILLIAMS: Okay. And that was a piece of equipment. So we can move on the fact that it was a piece of equipment and nothing else is required; is that correct?

MS. PICHETTE: That is correct.

Okay. I'll entertain a motion on 833 to allow that process to occur without any further environmental review.

MS. PICHETTE: And Mr. Chairman, I apologize. It is 0834.

CHAIRMAN WILLIAMS: Oh, I'm sorry. 834.

MS. PICHETTE: Thank you.

CHAIRMAN WILLIAMS: 834.

MS. OLSON: Mr. Chairman, maybe I might help a little bit.

CHAIRMAN WILLIAMS: Okay.

MS. OLSON: So what the Board is doing is taking on the responsibilities of the local government because the local government did not complete -- or the eligible applicant did not complete the environmental review process as part of the application that was submitted to the Board. So the Board has the option to -- in some cases such as this, to take on the environmental determination themselves and to make that environmental determination in order for the project to be completed.

So what you would be making a motion on is that you're determining their environmental review as exempt from further environmental review needed, if that helps.

CHAIRMAN WILLIAMS: Okay.

VICE-CHAIR FITZPATRICK: Question, Chairman. I

have a question.

CHAIRMAN WILLIAMS: Please.

VICE-CHAIR FITZPATRICK: With that thought,

Jennifer, is there liability on our behalf on, on that?

MS. OLSON: So any environmental decision that

the Board makes, the Board has the responsibility and the

liability if there were any questions. So that's why

you're holding it here at a public meeting, because any

public entity that has interest in the project itself

would be able to provide comment in regards to saying that

they feel like that's not the appropriate determination.

And so your -- the Board does have that responsibility and

The option that we've talked about numerous times, particularly at the Coal Board orientation and then I think most recently at the September meeting, is that the Board can require that the local government or the eligible applicant complete the environmental review process and come back to the Board with that completed process in order to move forward. So it's not solely on your shoulders. You can actually take an alternative action.

holds that liability as that determination is made.

You can also -- and I apologize, I didn't mean to say exempt. They are categorically excluded. And I apologize. In your Coal Board orientation binder, we went

1 through several different slides about environmental, and 2 one of those is that the Board can make an exclusion, a 3 categorical exclusion. I guess I said that wrong, 4 actually. But you can make a determination of categorical 5 exclusion, saying basically that, at the public meeting 6 that there's no impact, no further environmental review 7 required. But then again, as you pointed out, 8 Vice-Chairman, it would be a, a board liability. CHAIRMAN WILLIAMS: Okay. Board action on that 9 It's a piece of equipment. So I'll entertain a 10 item. 11 motion to exempt. BOARD MEMBER SCHAFF: I'll move to provide that 12 13 exemption. CHAIRMAN WILLIAMS: And second? 14 15 VICE-CHAIR FITZPATRICK: And this is for 16 Musselshell's equipment; right? 17 CHAIRMAN WILLIAMS: Golden valley. 18 VICE-CHAIR FITZPATRICK: Oh. Golden Valley? 19 MS. PICHETTE: It is Golden Valley for the 20 Jaws of Life purchase. VICE-CHAIR FITZPATRICK: Oh. Jaws of Life 21 22 purchase. So does that need an environmental... 23 MS. OLSON: So that's, that's exactly why you can 24 make this action and take this action. 25 VICE-CHAIR FITZPATRICK: So it's kind of a hit

and miss depending on -- Okay.

MS. OLSON: The type of project.

VICE-CHAIR FITZPATRICK: I second it.

MS. OLSON: And the other reason that I would say, as we've chatted about before, is that the opportunity for the public being engaged here is to present information that would otherwise help to further define if there is environmental impact. So there is -- if that's part of the exclusion, the items that are excluded, it's typically minor repairs, vehicle equipment purchases, et cetera, et cetera. Those tend to be considered exempt. We would agree with that.

However, we don't understand the full context of what that equipment purchase might be, you know, being used for or how that relates to the environment. Local interested parties probably would have some thought about that. So as part of the Coal Board review process, we say just go through an environmental public hearing process, public meeting, engage the public and see if there's any comments. So that's what we're replicating here today.

VICE-CHAIR FITZPATRICK: Thank you.

CHAIRMAN WILLIAMS: Other discussion?

Comments from the public?

BOARD MEMBER HENNING: And I have a, maybe a comment/question.

CHAIRMAN WILLIAMS: Sure.

BOARD MEMBER HENNING: Since I'm new to this process. Is there a reason why these communities have not gone forward with this environmental process?

MS. OLSON: And maybe I'll just chime in. I don't know that we can exactly answer that. As part of our application, the Coal Board application, which the Board sets the format of the application, an environmental review process is outlined as the steps that you need to complete. I think in the past 12 months we've done eight trainings on that to offer people assistance to go through that. And as you can see in our staff report, our recommendation is that the project does not get funded because it hasn't completed the environmental review process as an example.

So -- but as to the specifics of why, I, I don't know that we can totally answer that each time.

CHAIRMAN WILLIAMS: Typically, a piece of equipment like that, you know, what we would like to have them do is go through the part of the process as far doing meetings, you know, that type of thing. You know, that's -- but we moved, we already moved on this, awarding it, and so we're kind of catching up. What we should have done at that time was addressed it when the award was made, which we did not do. So that's what should have

happened. So it's just catching up.

Other discussion?

MS. BAILEY: I don't know if I missed my opportunity or not, but Mr. Chairman, Board Members, I would say that I apologize. I did not realize that this would be discussed today or how it would be handled. My file that covers that activity has additional information that I could mail in later, but I don't have that with me. And I apologize.

CHAIRMAN WILLIAMS: Thank you.

BOARD MEMBER SCHAFF: Kathie.

CHAIRMAN WILLIAMS: Yes.

BOARD MEMBER SCHAFF: The information you have is on the Golden Valley grant?

MS. BAILEY: Yes. I'm, I'm reasonably sure. I mean, like I don't have my file right in front of me to look, but I'm reasonably sure that we did, did additional environmental issues with the Golden Valley County Commissioners on another meeting, subsequent meeting. Because we had the application in, like, nine months before you could act on it and so there was time, and they did do some additional things. But I don't have that with me.

It is equipment. In all other grants, equipment is exempt and we don't go through this environmental process.

1 CHAIRMAN WILLIAMS: Okay. Thank you. 2 Vote, please. 3 MS. PICHETTE: Vice-Chair Fitzpatrick. 4 VICE-CHAIR FITZPATRICK: Yes. 5 MS. PICHETTE: Shawn Fredrickson. 6 BOARD MEMBER FREDRICKSON: Yes. 7 MS. PICHETTE: Amber Henning. 8 BOARD MEMBER HENNING: Yes. 9 MS. PICHETTE: Marianne Roose. 10 BOARD MEMBER ROOSE: Yes. 11 MS. PICHETTE: Tim Schaff. 12 BOARD MEMBER SCHAFF: Yes. MS. PICHETTE: Veronica Small-Eastman. 13 14 BOARD MEMBER SMALL-EASTMAN: MS. PICHETTE: Chairman Williams. 15 16 CHAIRMAN WILLIAMS: Yes. 17 Thank you. Next one. 18 MS. PICHETTE: The next one is No. 0836. It was 19 the Rosebud County Sheriff's Office equipment and 20 upgrades. And they provided a copy of their notice for 21 their meeting. We just have not received the subsequent 22 agenda or minutes that show the determination was made at 23 the public meeting. 24 CHAIRMAN WILLIAMS: Could we, on that particular 25 one, request them to provide that? Let's go ahead and

1	approve it and request them to provide that as follow-up.
2	Approve the exemption with a follow-up of requesting them
3	to provide that information. Okay? Could that be our
4	motion? Okay.
5	BOARD MEMBER HENNING: So motioned.
6	CHAIRMAN WILLIAMS: And second, please.
7	BOARD MEMBER SCHAFF: Second.
8	CHAIRMAN WILLIAMS: It's been moved and seconded
9	to exempt that with the request for them to provide the
10	documentation of their public meeting. Discussion?
11	Comments from the public?
12	Okay. Vote, please.
13	MS. PICHETTE: Vice-Chair Fitzpatrick.
14	VICE-CHAIR FITZPATRICK: Yes.
15	MS. PICHETTE: Shawn Fredrickson.
16	BOARD MEMBER FREDRICKSON: Yes.
17	MS. PICHETTE: Amber Henning.
18	BOARD MEMBER HENNING: Yes.
19	MS. PICHETTE: Marianne Roose.
20	BOARD MEMBER ROOSE: Yes.
21	MS. PICHETTE: Tim Schaff.
22	BOARD MEMBER SCHAFF: Yes.
23	MS. PICHETTE: Veronica Small-Eastman.
24	BOARD MEMBER SMALL-EASTMAN: Yes.
25	MS. PICHETTE: Chairman Williams.

1 CHAIRMAN WILLIAMS: Yes. 2 Thank you. That's passed. 3 Next one. The next one is No. 0837. It was 4 MS. PICHETTE: 5 the Town of Broadus, and the project was the Powder River 6 First Responders capnography machine. And the 7 environmental documentation we received for that was an 8 agenda. We did receive meeting minutes. The minutes, 9 however, did not reflect that a determination was made at 10 that meeting. 11 CHAIRMAN WILLIAMS: Okay. I now request the 12 Board to make the same motion on that, with them to provide follow-up information. 13 okay. 14 BOARD MEMBER HENNING: So motioned. 15 CHAIRMAN WILLIAMS: And second? 16 BOARD MEMBER SCHAFF: Second. CHAIRMAN WILLIAMS: It's been moved and seconded 17 18 to exempt them, with them to follow up with the required information Discussion? 19 20 Discussion of the public? 21 MR. ATCHISON: Jim Atchison with Southeastern 22 Montana Development. We did this for the Town of Broadus, 23 and we were under -- I was not aware that this was coming 24 up today either. But we will double-check and -- We

thought it was taken care of, but we'll follow up with

25

```
that. They've been very accommodating, so it should be a
1
2
     nonissue
3
              CHAIRMAN WILLIAMS: Okay. Great.
4
              MR. ATCHISON: Thank you.
5
               CHAIRMAN WILLIAMS: Thank you.
6
         Next one.
7
              MS. PICHETTE: Mr. Chairman, did you want me to
8
     do a vote with your motion and second?
         Vice-Chair Fitzpatrick.
9
10
              VICE-CHAIR FITZPATRICK: Yes.
11
              MS. PICHETTE: Shawn Fredrickson.
12
               BOARD MEMBER FREDRICKSON: Yes.
13
              MS. PICHETTE: Amber Henning.
14
               BOARD MEMBER HENNING:
15
              MS. PICHETTE: Marianne Roose.
16
               BOARD MEMBER ROOSE: Yes.
              MS. PICHETTE: Tim Schaff.
17
18
               BOARD MEMBER SCHAFF: Yes.
              MS. PICHETTE: Veronica Small-Eastman.
19
20
               BOARD MEMBER SMALL-EASTMAN:
              MS. PICHETTE: Chairman Williams.
21
22
               CHAIRMAN WILLIAMS: Yes.
23
         Okay. That's passed.
24
         Okay. Next, Anne.
25
              MS. PICHETTE: Sorry, Mr. Chairman. I lost my
```

spot. The next one is No. 0838. It is for the Town of 1 2 Roundup, and it was for the public works department end 3 dump purchase. And the only item -- we received 4 everything from them. The only item we're missing is the 5 actual determination happening in the minutes. So we 6 received the minutes. However, the minutes do not state 7 that their determination was made for a categorical 8 exclusion. 9 CHAIRMAN WILLIAMS: Okay. Let's do a motion on, 10 on moving that exemption forward, with them to follow up with that information to the Board. 11 12 BOARD MEMBER SCHAFF: So moved. 13 CHAIRMAN WILLIAMS: And second? 14 BOARD MEMBER HENNING: Second. 15 CHAIRMAN WILLIAMS: Discussion? 16 Comments from the public? 17 Vote, please. 18 MS. PICHETTE: Vice-Chair Fitzpatrick. 19 VICE-CHAIR FITZPATRICK: Yes. 20 MS. PICHETTE: Shawn Fredrickson. 21 BOARD MEMBER FREDRICKSON: Yes. 22 MS. PICHETTE: Amber Henning. 23 BOARD MEMBER HENNING: Yes. 24 MS. PICHETTE: Marianne Roose. 25 BOARD MEMBER ROOSE: Yes.

MS. PICHETTE: Tim Schaff. 1 2 BOARD MEMBER SCHAFF: Yes. MS. PICHETTE: Veronica Small-Eastman. 3 4 BOARD MEMBER SMALL-EASTMAN: 5 MS. PTCHETTE: Chairman Williams. 6 CHAIRMAN WILLIAMS: Yes. 7 Okay. That's approved. 8 Next one, Anne. 9 MS. PICHETTE: The next one is complete, so that 10 is the end of your list, Mr. Chairman. 11 CHAIRMAN WILLIAMS: We're okay? Are we done? 12 BOARD MEMBER SCHAFF: Mr. Chairman. CHAIRMAN WILLIAMS: Yes, Mr. Schaff. 13 BOARD MEMBER SCHAFF: So basically what's missing 14 15 is there's not a motion from these people that they are 16 determining this -- and a second and a vote on whether 17 they determine these had a categorical exemption? That's 18 what you need in the minutes from them? 19 MS. PICHETTE: That is correct. They have 20 provided -- the ones that provided minutes did provide 21 minutes. The minutes just did not show that they made a 22 determination at the meeting that they held. 23 BOARD MEMBER SCHAFF: And to do that, they have 24 to make a formal motion, second, and have a vote on it;

25

right?

MS. OLSON: All we're looking for is that the meeting minutes say that the local government made a determination that it's, it's excluded, and then that would be good.

BOARD MEMBER SCHAFF: Okay.

MS. OLSON: And Mr. Chairman, just to note, this part of the agenda was just for the applications that were already awarded at the January meeting where environmental determination was not clear or was not expected. When you get to your tabled applications, there will be one that I will have information to provide to you about what they have and have not provided.

CHAIRMAN WILLIAMS: There's one missing on the table, that is.

MS. OLSON: Correct. Just as a heads-up, but we're only on the awarded ones right now.

CHAIRMAN WILLIAMS: Okay.

MS. OLSON: So I don't want to bring that in unless that's something you'd like me to do.

CHAIRMAN WILLIAMS: Okay. Very good.

Okay. Let's now go to the tabled. Okay. (Inaudible) my thoughts here. Okay. We have -- on our tabled items, we've got requested funding, a total of \$786,460 on the tabled items. And then as I mentioned this morning, we have the new applications that total \$824,600 -- or no.

Yeah, \$324,600. And then we have some unknowns coming up in June. We anticipate or we know that we will have available -- what is appropriated is \$597,696. So Board Members, we can -- you see that we have a very, very large number and we do not have an available appropriation.

So my suggestion to the Board is this: We go through the tabled items, that's 841 through 846, and make our awards -- take them off the table, make our awards. But we need to have in the back of our minds how much money we have. So that means that those requested amounts will need to be different from what is awarded if we need to -- if we're going to move forward with this. So we need to look at those numbers constructively on looking towards the end of the year, which is in the end of June.

But let's, my recommendation is let's take them off the table, make our awards so those folks know what will be available and move forward in the process. But the applicants will need to understand that they will not be -- have a contract in place until revenue is actually available for that project or that piece of equipment. So we have to go through that, go through that and make the appropriate reductions or non-approval on those applications. Are we -- am I -- Are there any questions to what I've just stated?

comment?

We're at the process where we have to look very -make some difficult decisions on our future, on awards
because we don't have the funds to, to -- that we would
like to have to recognize that. Are we okay with that?

VICE-CHAIR FITZPATRICK: Can I have -- make some

CHAIRMAN WILLIAMS: Yes.

VICE-CHAIR FITZPATRICK: So 0841, most of them are my county, so I don't have a vote because I'll have to recuse myself. Here's some thought. Maybe let, let each applicant, if we can come up with maybe even paying half of that. For instance, here's Big Horn County law enforcement vehicle. Instead of 69,000, if they understand the Coal Board lack of funding, maybe half or -- it's just a thought. I'd like to see the whole funding because it's my county, but I don't, I don't have a -- I have to recuse myself.

BOARD MEMBER ROOSE: John, I have a question.

CHAIRMAN WILLIAMS: Yes.

BOARD MEMBER ROOSE: This is Marianne. I just -in regards to Sidney's comment about recusing himself, I
know other board members and you have had requests that
are for your county. Do all of you folks recuse yourself
when there is a vote that affects your county or do you
vote on it? What has been the practice in the past?

CHAIRMAN WILLIAMS: If there's an item that comes up with Colstrip, I'll be removing myself from that.

BOARD MEMBER ROOSE: Okay. Thank you.

CHAIRMAN WILLIAMS: Okay. So that's where --

BOARD MEMBER SMALL-EASTMAN: Mr. Chair.

CHAIRMAN WILLIAMS: -- we're at, Board Members.

We need to -- Yes.

asking how you handled your positions in the past. And I feel that we're put into this position to represent our constituents; and by representing our constituents, it would seem like we'd have to be proponents for the applicant and also to vote for our applicants -- for our constituents' applications. And so Marianne, her comment was what was the process in the past.

CHAIRMAN WILLIAMS: Well, the process --

BOARD MEMBER SMALL-EASTMAN: And then lately now they're asking to recuse ourselves for the present.

CHAIRMAN WILLIAMS: The process in the past has gone both ways. But Amy, through her review of the statute has -- and I won't speak for you, Amy, but you've made the recommendation that that not occur; that we remove ourselves from the vote. If you would like to address that, Amy, please.

MS. BARNES: Sure. So you have internal

management procedures that address the conflict of interest. But then there are also the code of ethics, which as Coal Board Members, you also have to follow. And the code of ethics is a little bit more stringent than the actual conflict of interest rule that you have in your internal management procedures.

So it would be my recommendation that if you have a direct conflict of interest, that instead of just recusing yourself from actually -- So the conflict of interest in your internal management procedure says that you may not participate in any decision that's relating to contracts that affect your personal interest or the interest of any corporation, partnership, or association in which you are directly or indirectly interested or you have a personal or pecuniary interest, direct or indirect, in the contract or in the process thereof.

And the way that your management procedures has actually defined what participate means, it means that you are prohibited from making motions, seconding motions, and voting. So as a baseline, that's my recommendation, that you definitely do not participate by making motions, seconding motions, or voting.

VICE-CHAIR FITZPATRICK: I have a question. So you can't even comment or try to influence or anything? Where does that lie?

MS. BARNES: So that is up to a determination of how you actually interpret what participate means when you're looking at the code of ethics. They don't actually define what it means. I think that's part of how the public will perceive how you participate. And if you are sitting as a Coal Board Member and trying to wear dual hats as the county commissioner at the same time, it could be perceived as participation.

VICE-CHAIR FITZPATRICK: I think that has to play a big role, because, you know, we never know who's sitting in the crowd. And so -- That's, that's just my thoughts. And so if you look at the City of Hardin, Lodge Grass, I play a role in there. They're my -- we work with them, government-to-government relationships. So my thoughts there is -- You know what I'm saying? Even though I don't work for the City of Hardin, but we work right along with them and we do business, and the same with Lodge Grass. I mean, that kind of -- that's a fine line for me in my code of ethics and in my thoughts.

Okay. Board Members, are we okay with walking through -- Here's my other thought. We would go completely through, need to be reminded I think of the applicants, need to take them off the table and walk all the way through, and we go back and make the awards,

keeping in mind the available money.

Okay. Before we begin the process, however, are there any of the tabled applicants that would like to change any request before we...

MR. GERKE: Mr. Chairman, Members of the Board.

Again, my name is Dennis Gerke. I'm the superintendent at Hardin Schools. I'd like to address project No. 0846, activity center pool roof replacement. We would like to -- in an effort to help out the challenges the Board has and funding for these other projects, we would like to reduce our asking amount by \$100,300. So the asking amount would be 284,000.

And I would also like to add in there while I'm up here that our board has approved going to our voters for a building reserve levy for our elementary. We are asking for \$100,000 over the next 10 years from our elementary district, and we are asking for 50,000 a year for the period of 10 years for our high school district in an effort to partner with everybody on that.

So again, from 384,300 down to 284,000 that we are asking for. I'd entertain any questions at this time.

CHAIRMAN WILLIAMS: What I'll do, Superintendent, is we'll take that off the, off the table and then we can address that further. Okay?

MR. GERKE: Thank you.

1 CHAIRMAN WILLIAMS: Are there any other? 2 Hearing none, we're going to go ahead and... 3 MAYOR PURCELL: Thank you. I want to thank the 4 Board for allowing me to go back through our application last time and redefine where our funds were and look for 5 6 some more sources. We were able to get the bid process 7 started and able to reduce our asking on our application, 8 to reduce it to \$129,296. 9 CHAIRMAN WILLIAMS: Just a second. Name, please, 10 and --11 MAYOR PURCELL: Oh, I'm sorry. 12 CHAIRMAN WILLIAMS: -- what are you talking about? 13 14 MAYOR PURCELL: Joe Purcell. City of Hardin 15 application No. 844. My apologies. The paving project 16 for the Terry Avenue street project. I had tabled that application at the last meeting, and then we had brought 17 18 that forward this meeting. So in review, we were able to 19 reduce that amount of our request. 20 CHAIRMAN WILLIAMS: You're removing that? ΙS 21 that correct; you're removing that? 22 MAYOR PURCELL: Reduce it. We removed it last 23 time or tabled it last time --24 CHAIRMAN WILLIAMS: Okay. MAYOR PURCELL: -- but reducing the requested 25

amount to 129,296. We were able to pull some more city 1 funds into the project, and our bids came out a little bit 2 3 less than we had anticipated. 4 CHAIRMAN WILLIAMS: Okay. 5 MAYOR PURCELL: Thank you. 6 CHAIRMAN WILLIAMS: Thanks. It's still not going 7 to get there. Let's go, let's just go ahead and walk down 8 through these rather than -- let's -- Yeah. Let's take --I'll entertain a motion to remove 841, 842, 843, 844, 845, 9 and 846 from the table. 10 11 BOARD MEMBER SCHAFF: So moved. 12 CHAIRMAN WILLIAMS: Second, please. BOARD MEMBER ROOSE: I'll second. 13 14 CHAIRMAN WILLIAMS: It's been moved and seconded 15 to remove those applications from the table. Discussion? 16 Comments from the public? 17 Vote, please. 18 MS. PICHETTE: Vice-Chair Fitzpatrick. 19 VICE-CHAIR FITZPATRICK: I recuse since they're 20 all in my county. 21 MS. PICHETTE: Shawn Fredrickson. 22 BOARD MEMBER FREDRICKSON: Yes. 23 MS. PICHETTE: Amber Henning. 24 BOARD MEMBER HENNING: Yes. 25 MS. PICHETTE: Marianne Roose.

BOARD MEMBER ROOSE: Yes.

MS. PICHETTE: Tim Schaff.

BOARD MEMBER SCHAFF: Yes.

MS. PICHETTE: Veronica Small-Eastman.

BOARD MEMBER SMALL-EASTMAN: Yes.

MS. PICHETTE: Chairman Williams.

CHAIRMAN WILLIAMS: Yes.

Okay. That's passed to remove all those applicants from the table. Now we'll begin the process. Everybody keep in mind what we have. Available appropriation is \$597,696. That's what we have for the rest of this year.

Big Horn County, 841. This is the law enforcement vehicle fleet upgrade.

Go ahead, Anne.

MS. PICHETTE: Thank you, Mr. Chairman.

No. 0841, Big Horn County law enforcement vehicle fleet upgrade, \$69,646. The applicant is requesting \$69,646, of a total project cost of \$99,646, in Coal Board funds to complete the purchase of two new patrol vehicles. The request to the Board is 70 percent of the project cost.

The applicant states the need to upgrade vehicles as the current fleet has aging vehicles with high miles. The existing fleet of 13 vehicles includes 8 with over 70,000 miles.

CHAIRMAN WILLIAMS: Mr. Fenner.

COMMISSIONER FENNER: Mr. Chairman and Members of the Coal Board. My name is Chad Fenner, a Big Horn County Commissioner. I come before you for the law enforcement vehicles. We, we got a couple that need to replaced. We're in a union; we have a union contract. I know the mileage is probably more than when we sent that. They come to 120,000 and we've got a union that makes us replace them.

And usually on the deals like this, in the past we've always given 50 percent. I know Board Member Fitzpatrick said that. We always try to match the Coal Board, the funding from Big Horn County. And with the reduction of coal in this past year or two, we've, we've noticed a decline and that's why we went to 30 percent on that.

And like I said, these vehicles are needed. I mean, crime everywhere, Big Horn County, is on the rise and it's something, a tool that we need. We need that.

And I also want to -- we have, like was said coming up here, the library, the fairgrounds, the City of Hardin, and the Hardin Public Schools. Big Horn County also wants to support them. And if you have any more questions -- I know you heard the, our Undersheriff Fuss speak of this last meeting, but if you have any more questions, he's here to answer any questions you have.

Thank you.

CHAIRMAN WILLIAMS: Questions from the Board?

BOARD MEMBER SMALL-EASTMAN: Mr. Chair.

Mike, my only --

CHAIRMAN WILLIAMS: Veronica.

BOARD MEMBER SMALL-EASTMAN: -- comment is as a constituent of Big Horn County and just yesterday driving to Billings, seeing the sheriff's vehicles out on the interstate just parked there. I kind of feel like why are we patrolling the interstate and not the Big Horn County road? And why are all the sheriff -- the Big Horn County Police Department being, serving Hardin more so than their satellite communities, such as Hardin -- or such as Lodge Grass, Crow Agency, Wyola, and Pryor? Why isn't that happening? We need to see more police out in those areas rather than out on the interstate parked there.

COMMISSIONER FENNER: I can answer part, part of that last question. I know the City of Hardin pays us a fee to police, to police the area. But overall, Big Horn County sheriffs gotta -- you know, they're, of course they're more busy in town. Most of the crime is in town. Probably 85 percent of the crime is in Hardin, Montana.

Of course, there's, there's stuff all over the county that goes -- And a lot of times I know we're getting calls from the commissioners' office, you know, that -- after the fact, of course, it's always after the fact, that they

go and a crime is committed and stuff. But basically, you know that -- you know, to get a service, you've got to pay for it. Everything you've got to pay for nowadays. And the City of Hardin has come up, you know, and has paid us.

And of course, we could definitely use more deputies.

That's, that's an issue that's been around since I've been commissioner. You always need more deputies. But of course, in turn, that means more taxes and stuff.

But that part, you know -- I know they're moving around a lot more. They're going to satellite areas where you're talking about, the small towns in the county and stuff. They have done that a lot better under the new sheriff. And hopefully we can see more of that. But like I said, to get deputies out there, of course, you need vehicles, which we're asking for, and you need the deputies themselves, which is -- you know, it's all, it's all money. It's all taxes.

And Mike, you might, you might want to talk about on the interstate.

MR. FUSS: And I apologize, I'm trying to fight off a cold. But a lot of times those deputies are on the interstate because we get calls from other agencies such as Yellowstone County or BIA and we're looking for a certain vehicle that might be a drunk driver or a stolen vehicle. And sometimes those deputies are sitting out

there in those turnarounds waiting for that vehicle.

The other thing is, is MHP is not always on down there, and we have extremely bad accidents on that -- as you know, on that interstate, and so the deputies are the first ones to respond, and they have to wait for a Highway Patrolman to come down. But most of the time they're awaiting -- it's an agency assist for another vehicle.

I make the schedule and I put those deputies on county patrol. So you'll have one or two deputies that are only out in the county, they're not in town. But as Commissioner Fenner said, we are short-staffed and sometimes I can't get two people out in the county at one time. So they have -- we have a certain amount we have to keep in town for the contract with the City.

BOARD MEMBER SMALL-EASTMAN: Okay. Thank you.

CHAIRMAN WILLIAMS: Okay. I'd like to get it back to the piece of equipment. You've got three applications in here, Big Horn County library, law enforcement, fairgrounds. Do you have any priorities on any of those that you would like to move forward with?

And the other, the other comment, Chad, is the fact of the cost of that piece of equipment, that I have -- I can put a piece of equipment out, a brand new one, for \$37,000.

COMMISSIONER FENNER: That's totally equipped.

Radar, I mean, it's --

CHAIRMAN WILLIAMS: Yes. And that's -- Yes. I'd be glad to share this information with you. But that's, that's what we can put out a piece of equipment, \$37,735. There wasn't any trade-in on this either, I don't think on the \$100,000 unit.

By anyway, back to my first question. You've got three, three applications here. Do you have a priority on any of those?

COMMISSIONER FENNER: I've been on that side of the table. They're all important. I can't, I can't pick one out. I mean, it's -- they're all, all important.

CHAIRMAN WILLIAMS: Okay. So we'll, we'll have to go through with what we're going through. Okay.

BOARD MEMBER HENNING: I guess, Mr. Chairman, I had a comment to make and a question too.

I was looking at the quote in, in your application packet. And I was wondering if you received any other quotes from any other entities to get these vehicles possibly at the lower price that the Chairman was alluding to.

MR. FUSS: I'm sorry. (Inaudible).

BOARD MEMBER HENNING: Yes. I had a question on the vehicle quote that was in your submission, application submission, and I was wondering if you had received any other quotes for vehicles and what those prices were and if they were at a lower price. I know the Chairman was alluding earlier that possibly he has gotten vehicles at a lower price than what is estimated in your application.

MR. FUSS: Not that I'm aware of. I don't believe he went to anyone else. The sheriff is the one that got the quotes. And those come from a, a person that we buy all of our cars from.

COMMISSIONER FENNER: Mr. Chairman, we can do one car, do one car from you folks, and then if you fund the rest of the ones. They're small ones. That car is probably kind of covering the two other.

CHAIRMAN WILLIAMS: What's the least amount you can get by with here?

COMMISSIONER FENNER: (Inaudible).

MR. FUSS: (Inaudible) Ford Interceptors.

Maybe I can make a suggestion. If we -- we could, we could probably reduce that if we can go get a quote for two pickups, which are way cheaper than the Ford Interceptors. But I think like you said, Chairman, you know -- I'm not sure if that's what your quote's on, is 37,000.

CHAIRMAN WILLIAMS: It's pickups.

But what's the least amount you can get by with?

(Inaudible conversation.)

COMMISSIONER FENNER: 35,000.

CHAIRMAN WILLIAMS: Okay. Other questions?

And one other thing I'm going to come after you on,

Mr. Fenner, and you've heard me say this before, Big Horn

County has no debt; correct?

COMMISSIONER FENNER: You are correct. And I'm proud of that. That's my job. That's my job as a county commissioner.

CHAIRMAN WILLIAMS: I understand that. But on the criteria, statutory criteria, one of the issues that we need to look at as a board, it says you shall look at, is the county's indebtedness or local government indebtedness. So if I compare this with other, other places that have significant debt, particularly Musselshell County, significant debt, and so does Roundup, another applicant. So that's the thing that we have to look at. And that's great for you to stay debt-free, but it is criteria, as you well know.

COMMISSIONER FENNER: But in the, in the -- You heard the superintendent of schools, Mr. Gerke, say there's taxes coming. We're trying to build a new jail. It's -- believe me, it's coming. It's coming.

CHAIRMAN WILLIAMS: Okay. Okay. Thank you.

Okay. I thought what we could do, if it's okay, with
the Board, we'll walk all the way through this and then

we'll go back and make our awards. The next one is 842, Big Horn County, library capital improvement needs.

MS. PICHETTE: Thank you, Mr. Chair. No. 0842, Big Horn County, library capital improvement needs. \$30,433. The applicant is requesting \$30,433, of a total project cost of \$40,433, in Coal Board funds to complete the purchase of equipment for the library. The request to the Board is 75 percent of the project cost.

The applicant states the need to upgrade equipment as the current computer hardware, software, and wireless routers are aging and problems are being experienced.

CHAIRMAN WILLIAMS: Okay. Thank you.
Big Horn County.

MS. BOYER: Hi, Mr. Chairman and Members of the Board. My name is Donelle Boyer. I am the director at the Big Horn County Library. We have eight public access computers for adults, we have five public access computers for the children, three card catalogs, and six staff computers that we're looking at upgrading to more current, updated equipment.

Right now our -- all of our computers are about eight years old. People that are going to college and even to high school, their home computers that they're purchasing have newer software than what we are able to help them with. And so we have people that are coming in

needing to print out projects or work on projects,
resumés, job applications and such that our computers
won't handle what they're doing. And if they bring their
own equipment in, it's not -- our printers aren't able to
print because the applications are too old for the
machines that are available.
This last month, the library was open 19 days in

This last month, the library was open 19 days in February. We had 150 children sessions on those five computers and we had 697 adult sessions, which gives us over 480 hours of computer usage just in February. Right now we have, one of our modems is down at the library. We've been kind of gimping along trying to -- for our WiFi, and we have not been able to give our patrons the WiFi service that they have come to expect because we can't afford the new modem.

I guess that's -- if you have any questions, I'll try and answer them for you.

CHAIRMAN WILLIAMS: Okay. Questions from the Board?

BOARD MEMBER HENNING: Yeah, a couple questions, Mr. Chairman.

First off, I notice you have the, for the environmentals, because we were just trying to --

MS. BOYER: Yes.

BOARD MEMBER HENNING: -- procedure-wise, your

minutes did not show that an environmental determination made. Was there actually one that was not reflected in your minutes?

MS. BOYER: We were told that we didn't need one because it was equipment, and so I guess...

BOARD MEMBER HENNING: So --

MS. BOYER: That was my understanding.

BOARD MEMBER HENNING: -- the Board will have to.

CHAIRMAN WILLIAMS: Anne.

MS. PICHETTE: Mr. Chairman, and I apologize, Amber, since you were not at the meeting. At the last meeting there was some discussion back and forth regarding the information provided in the staff summary because of the entities of these last three that performed the environmental process, after the January meeting, the county commission, because the Big Horn County was the actual applicant, went through the process. And you should have that documentation in an envelope because it wasn't part of the actual March binder.

So following the January meeting, the Big Horn County Commission provided all of the environmental documentation needed for the law enforcement vehicle upgrades, the library capital improvement needs, and the one you may be addressing next, 0843, which is the fairgrounds improvement. So while the library did not, and that's

what the staff report reflects, you do have some supplemental documents that were mailed out that Big Horn County supplied for all three. If that's helpful.

BOARD MEMBER HENNING: Yes, it is. Thank you.

CHAIRMAN WILLIAMS: Other questions?

BOARD MEMBER HENNING: I did have a further inquiry.

What other grants have you looked into for this funding?

MS. BOYER: We haven't gone looking for any other grants at this point. We got -- the commissioners have been generous and have committed \$10,000 to the project, and that's as far as we've gotten so far. We are working with a capital improvement plan, putting it together so that we can go and look for other grants if need be.

CHAIRMAN WILLIAMS: Other questions?

MS. BOYER: Oh. We are up for an election in June where the library -- every two years the library goes out and asks for five mills additional to what the commissioners, the County gives us. And this year we're looking at trying to make it permanent so that we don't have to go to the election every, every two years and so we can keep our funding at constant instead of not being sure -- you know, worrying about it every two years. And we are asking for six mills at this permanent levy.

5

CHAIRMAN WILLIAMS: So you're increasing your mills? Is that what you're out for election, to increase your mills; is that what you're saying?

MS. BOYER: Well, the commissioners give us five mills, and we are -- we're not totally funded out of the general fund, and so we go to the, we go to the voters every two years to ask for an additional five mills to fund the library at its current level. And because the mills are down, the cost of a mill is -- or the mill is down this year, that's why we're asking for the six mills to still maintain where we are.

CHAIRMAN WILLIAMS: I see. So you're increasing it from five to six, that's what you're requesting?

MS. BOYER: Yes.

CHAIRMAN WILLIAMS: Okay. You know, and of course, my question is that \$30,000, could Big Horn County just go ahead and fund that?

VICE-CHAIR FITZPATRICK: You know, Mr. Chairman, Members of the Coal Board, this past year we used all of our gross proceeds in the budget, you know, and so there was -- you know, what came in went back in to providing services at our county government: Our library, our roads, our ambulance. Ambulance this year, we're projected to be 400,000 short by June 30. So, you know, when you talk to us about, you know, can't you just do it,

you know, we're going to have to figure out how we're going to pay our ambulance too. So...

Thank you, sir.

BOARD MEMBER HENNING: Mr. Chairman, I had another question --

CHAIRMAN WILLIAMS: Yes. Please.

BOARD MEMBER HENNING: -- regarding quotes.

Did you receive any other quotes for this systems upgrade?

MS. BOYER: No, we didn't. The quote that we sent in is the company that we do all of our, we do all of our computer -- I can't get the words out here, the technical -- you know, they're the company that we go to for all of our computers. And so they're familiar with all of the infrastructure in the building and all of the software and everything that we need to keep, keep going.

BOARD MEMBER HENNING: And further on this, on this list, I guess what is the main priorities in your library in this upgrade? What is, what is the most important? Computers? WiFi? You know, from this list. I know you would like all of it, but what's kind of the pressing issues?

MS. BOYER: Oh. The computers is just, just -- I guess it's all kind of tied together, because we do have so many people that are coming in using the WiFi

connection as well as using it after hours. And, and then the hardware itself in the building with the software is a pressing issue for those that are coming in needing things printed out for job applications, for unemployment, for, you know, school applications, that type of thing. So it's all kind of tied together.

CHAIRMAN WILLIAMS: Okay. Other questions?
Okay. Thank you.

MS. BOYER: Thank you.

CHAIRMAN WILLIAMS: Next is 843, Big Horn County, fairgrounds improvements project, \$66,000 requested.

MS. PICHETTE: Mr. Chairman, 0843, Big Horn
County, fairgrounds improvement, \$66,785. The applicant
is requesting \$66,785, of a total project cost of
\$116,785, in Coal Board funds to complete the fairgrounds
improvement project. The request to the Board is
57 percent of the project cost.

The applicant states the need to make improvements including a pump house, well, electrical, and waterline work to improve the facility and provide for cost savings.

CHAIRMAN WILLIAMS: Okay. Thank you.

MS. GREENWALT: Hi. (Inaudible) record,
Linda Greenwalt, Big Horn County Fair Board, Hardin.
Mr. Chairman, Members of the Coal Board, Department of
Commerce, it's a pleasure to be back before you. As you

will recall, Big Horn Fair Board is requesting monetary help with our project of drilling a water well, providing irrigation water to our baseball fields and picnic areas and livestock water to our arena, corrals, and to our county stockyards.

In an effort to be fiscally responsible, the fair board is always searching for ways to keep our operational budget in check, and the county commissioners have pledged \$50,000 towards our project, acknowledging the importance of this project. It's the fair board's wish that the Coal Board look favorably at our monetary request. And if I can answer any questions, I would be happy to do so. Thank you for your time. It's greatly appreciated.

Questions? Questions?

BOARD MEMBER HENNING: The Chairman said he'd be right back.

BOARD MEMBER SMALL-EASTMAN: The total amount of your budget was 116,000; right?

MS. GREENWALT: Yes.

BOARD MEMBER SMALL-EASTMAN: And the County is --

MS. GREENWALT: Pledging 50,000.

BOARD MEMBER SMALL-EASTMAN: 50,000.

MS. GREENWALT: Yes. ma'am.

BOARD MEMBER SMALL-EASTMAN: Is there any other

grants that you're applying for or that's it?

MS. GREENWALT: No. At this time, that's it. We've looked at grants for other upgrades, like playground equipment and that kind of stuff. But those are further out in the future. But as far as the dollar amount, we've not looked at any other grants available. No.

BOARD MEMBER SMALL-EASTMAN: Thank you.

I appreciate the Big Horn County Commissioners for budgeting 50,000 for --

MS. GREENWALT: Yeah. Our water charges for irrigation from the City of Hardin is just like, if you'll pardon the expression, eating our lunch. So...

BOARD MEMBER SMALL-EASTMAN: Thank you.

BOARD MEMBER HENNING: And with this new system upgrade, are you indicating that that water cost would then be lower?

MS. GREENWALT: As in for that area of the facilities, the compound?

BOARD MEMBER HENNING: Correct.

MS. GREENWALT: Zero. Yes, ma'am.

BOARD MEMBER HENNING: All right. And I was reading the material you submitted about your overall improvement project for the fairgrounds. Where, where does this specific project fit into that overarching improvement plan?

MS. GREENWALT: Right now it's at the forefront of the past five-year CIP plan. We are in the process of updating the CIP plan. Actually, we've done work in two meetings back-to-back to revisit projects that was on the CIP plan moving forward and into the future. So we've done, we are doing our homework to figure out -- and ranking them as to which project in the future would be the most important on the board side. Of course, it needs to be filtered out through the commissioner side. But yeah, we are, we are diligently working on that.

BOARD MEMBER HENNING: And so this process, you're -- Is this one of the first projects you're tackling in this improvement project?

MS. GREENWALT: Yes. Yes, ma'am.

BOARD MEMBER SMALL-EASTMAN: And I may mention, I would like -- as a constituent of Big Horn County, I would like to see, you know, the tour rodeos that go on that Paula Small-Plenty, you know, is in charge of for the rodeo region.

MS. GREENWALT: Uh-huh.

BOARD MEMBER SMALL-EASTMAN: And I'd like to see some of those happening there at Big Horn County as -- you know, as a fundraiser. And then I go to, go to Rosebud County and look at their, their county fair. They have concerts. They have the 4-H fair. I mean, they have the

carnival. They have the whole, whole thing going, and, I mean, it's a big week for Rosebud County.

whereas, you know, we have our 4-H fair, and it's just one week, and later on there's a carnival, you know, a month later or a month earlier. And we just don't see that happening. And I look at the facility, and it needs to be utilized, you know. And I think that whether -- you know, your Fourth of July rodeo, the roping that they have, you know, I'd like to see a wrangler team roping happening there. There could be a lot of things that could be used for the, the cowboy country of Big Horn County, you know, and that's what I'd like to see.

MS. GREENWALT: And we are working towards, towards that area. And part of it is we actually have to have somebody to manage and help -- The fair board members are all nonpaid members. We're all appointed members. So in order to do what you're asking, or suggesting we are moving towards that direction. The fair board has submitted membership to the Rocky Mountain Fair Association. And actually, as part of our CIP plan, we have requested funding for a part-time fair manager. Of course, that's going to be out a couple years in the future according to -- you know, depending upon the funding.

But we are moving in that direction. We know we need

to do more and utilize our, our new facilities more. We are moving that direction. Yes.

BOARD MEMBER SMALL-EASTMAN: Appreciate that.
Thank you.

CHAIRMAN WILLIAMS: Other questions?
Okay. Thank you.

MS. GREENWALT: You're welcome. Thank you.

CHAIRMAN WILLIAMS: Next is 844, City of Hardin.

MS. PICHETTE: Thank you, Mr. Chairman.

No. 0844, City of Hardin, high school, complete pavement restoration, \$169,296. The applicant is requesting \$169,296, of a total project cost of \$537,803, in Coal Board funds to complete the street restoration near and around Hardin High School. This request to the Board is 31 percent of the project cost.

The applicant states that this project has been discussed at several levels for over six years and has been identified as a priority to community members. The City of Hardin has worked with engineers to investigate all solutions for the most expedient and cost-effective way to repair or replace the problem streets.

This application is for the same project awarded at the June 2017 meeting for \$243,903 and is a request for additional funding. If the June 2017 awarded funds are included, the request is 77 percent of the project cost.

1 CHAIRMAN WILLIAMS: Okay. Thank you.

MAYOR PURCELL: Chairman, Coal Board,

Joe Purcell, mayor of City of Hardin.

Like I stated earlier, I had asked for our application to be tabled at the last meeting so I could review more funding sources. I was hoping to be able to pull some funds from our street maintenance, and with our snow removal, it kind of took care of our extra budget through that. We were able to reduce it by 40,000. So the request I come with today is at \$129,296 to help kind of complete that project.

Any questions of the Board?

BOARD MEMBER SMALL-EASTMAN: Mr. Chair.

CHAIRMAN WILLIAMS: Yes. Please.

BOARD MEMBER SMALL-EASTMAN: I would like to ask, have you sought out additional funding from other agencies that are part of the community of Hardin?

MAYOR PURCELL: We have, in the past have solicited the school, see if they would help come in with that project. The discussion was brought up over an SID, which is kind of our last resort type of an option.

TSEP at this point we do not qualify for because of the, the loans and stuff we have out at this time with our industrial park.

So we have pursued other options, and that's why I

wanted to go back and look at our budget and see what I could pull from that. We were able to pull some of our gas tax money that will be put towards the project. And again, I was going to look at the street, street maintenance part of our budget, and that kind of got shot out of the water with, with the snow removal.

BOARD MEMBER SMALL-EASTMAN: You mention the Hardin School District. Have they provided a match at all for any funds?

MAYOR PURCELL: No, they have not.

BOARD MEMBER SMALL-EASTMAN: They haven't?

MAYOR PURCELL: No.

BOARD MEMBER SMALL-EASTMAN: Thank you.

MAYOR PURCELL: You're welcome.

CHAIRMAN WILLIAMS: Mayor, what's your debt?

MAYOR PURCELL: Large. I don't have the exact numbers with me. I do know that with our industrial park and our, and our TSEP part, we're looking at approximately 20 million that we are paying down to, working with the revenues on that. We have some tax issues with some of the new, the new industry that has gone out north of our town and we are working with that as well. So we do have a pretty high debt ratio.

CHAIRMAN WILLIAMS: Are you, are you planning on doing this whole project? Do you have money available to

1 do this whole project? 2 MAYOR PURCELL: We are short the 129,000 to do the complete project. 3 4 CHAIRMAN WILLIAMS: That's what you're short, 5 129 --6 MAYOR PURCELL: Correct. 7 CHAIRMAN WILLIAMS: 537,000 project and you're 8 short 129. 9 MAYOR PURCELL: Correct. 10 CHAIRMAN WILLIAMS: The additional money that 11 you'll receive as far as the gas tax ratio, have you, have 12 you identified where you're going to put that money? 13 MAYOR PURCELL: The current moneys and the 14 projected moneys for the next year or the next quarter is 15 around 120,000, and that money would be earmarked towards 16 this project. We do have the potential of looking forward 17 even to the next quarter, and the way I understand that 18 money is it's probably about the 30 to \$40,000. 19 CHAIRMAN WILLIAMS: So you could, you could set 20 aside some of those funds in order for this to move over 21 to this project, or had you planned on setting some of 22 those funds aside? 23 MAYOR PURCELL: The 120,000 is part of this 24 already.

CHAIRMAN WILLIAMS:

25

Okay. I understand. What's

The attitude to -- on the high school, completion project?

I know that the superintendent's here. Is the school interested in picking up any portion of that? I don't know if I've asked that question before.

MAYOR PURCELL: I know they've been approached in the past. I personally have not approached them since I took over as mayor. There's been a, a history of, of the ask through the school board that was denied. The way I understand, the biggest hang-up is just the school board has a lot of projects going themselves.

The main ask from the City to the school board was because the street basically kind of surrounds the school. It's our school parking lot. It's the main activity entrance for all of our sporting events and that. Budget-wise, I don't think it has been considered in as far as the school board. I don't know all the details, of course, of all that process, but...

The City and the school does not have a bad, a bad rapport.

CHAIRMAN WILLIAMS: I'm not suggesting that. I was just wondering if there was any commitment towards, towards this because of the location of where your project is. It's to serve the school, a part of it.

Okay. Any other questions?

And of course, you understand where we're at as far as

1 available money. 2 MAYOR PURCELL: I do. CHAIRMAN WILLIAMS: It's a big project. A lot of 3 money. Even, even with your reduction of \$129,000, we 4 5 don't have enough money. 6 MAYOR PURCELL: I understand. Thank you for your 7 consideration. 8 CHAIRMAN WILLIAMS: Okay. Thank you. 9 Next is 845, Rosebud County. 10 BOARD MEMBER SMALL-EASTMAN: Sir, Mr. Chair, I'd like to ask a question for Mr. Gerke, the superintendent. 11 12 MR. GERKE: Ms. Small-Eastman. 13 BOARD MEMBER SMALL-EASTMAN: Mr. Gerke, we've 14 been asking the, the mayor a couple questions about, you 15 know, the school district --16 MR. GERKE: Yeah. 17 BOARD MEMBER SMALL-EASTMAN: -- contributing, and 18 I was just kind of wondering, what is the latest update with the board? 19 20 MR. GERKE: Well, I've answered this question 21 before, and I'll answer it again. This happened way back 22 when, when we went to the City. And I guess maybe I can throw my board under the bus a little bit because I'm 23 24 retiring here the 30th. But I went to the board and asked

the board for \$50,000 to contribute to this project.

25

Okay? That was my ask.

I didn't have at that time the entire support of the board to come up with that money for this street project in front of the school because the street is considered city property, was their rationalization on that. Okay? So we wrote a letter in support, but at this point -- or at that point when I went to the board, Veronica, they were not willing to put in money to fix a city street. You know, I hope that explains it.

And I might -- and I'm going to talk about our budget a little bit here as long as I'm up here, because our project is coming up. You know, we receive Impact Aid dollars. All of you guys know that. Okay? A lot of those Impact Aid dollars are earmarked for part of our salaries or a lot of our salaries.

Our elementary general fund this year was actually less than it was last year. Okay? Now, in the high school we had an increase in our general fund budget because of an enrollment increase, which we did a budget amendment with the State and we were able to get some dollars to hire another teacher for that.

So, really, those general fund dollars are pretty much earmarked, like almost 90 percent of ours are earmarked for salaries and benefits. Okay? And I know, Tim, you understand that part of it. We do have Impact Aid money.

10

12

13

11

14 15

16

18

17

19

20

21

22 23

24

25

We did a feasibility study on our pool also. Okav? You guys funded that study, which we appreciate. And we have, like, a plan to go forward with our pool. Okay? And with the contribution from our community, you know, we're going to eventually have to go to the voters down the road, but we have to get that roof fixed first. Because it can just about fill up our pool right now with rainwater.

So I understand the challenge you guys are having with dollars, and we're thankful for anything you can or can't give us. I mean, we're going to make it work down the road somehow because we have to. Okay?

So I hope that answers your question. It's not that we don't support the City. We do. We work closely with both the City and the County and especially the Big Horn County Sheriff's Department, and so I think those three entities are, are really strong right now. So I hope that answers your question.

CHAIRMAN WILLIAMS: Thank you.

Other questions? Comments?

Thank you.

Next is 845, Rosebud County, the health care center equipment.

MS. PICHETTE: Thank you, Mr. Chairman.

No. 0845, Rosebud County, health care center equipment

updating, \$66,000. The applicant is requesting \$66,000, of a total project cost of \$66,700, in Coal Board funds to complete the purchase of 40 beds and mattresses for the long-term care facility. The request of the Board is 99 percent of the project cost.

The applicant states the need to upgrade aging equipment with new beds and mattresses as the last new beds were in 1958. The previous beds have been replaced as needed and existing beds are previously used from the hospital or neighboring hospitals and have parts that are no longer available.

MR. TOOKE: My name is Ryan Tooke. Mr. Chairman, Members of the Coal Board Grant, again, things haven't changed much since my original request, but I would like to reduce it from 66,000 down to 60,000 because we have had donations and other revenue coming in for that.

I always kind of feel a little sheepish when my grant is 99 percent -- or ask is 99 percent, but then I get to thinking, okay, seven years ago or eight years ago almost now, if I had went to the board and said our next eight years we're going to be spending 8.9 million, they'd have laughed. Because I'm conservative, they're conservative, and I didn't think that I could ever get the stars to align just right to where we have been able to currently put in 6.5 million in updates. The future,

looking at a remodel in a couple years, that will be
2.3 million. So technically, this upgrade is about
.6 percent of the whole picture of what we're doing. I
just have to take it little bites at a time.

our debt load right now -- at the time of the application was a little bit over 2 million. We paid off \$88,506 since then. However, we had to borrow an additional 175,000 for some new x-ray equipment. We have purchased -- with the \$5,000 that we received in donations, we have purchased 15 new mattresses, and the residents are very appreciative of it. It's not only just an upgrade. It's also a safety and an infection control. A lot of times with old mattresses we have experienced bed ulcers or, old term, bed sores. So the residents who have received new mattresses are greatly appreciative of it.

If we do not get the grant, that does not mean this project isn't going to go forward. We're just going to slow it up a little bit, buy a few more -- or a few beds at a time. However, as things look, we might actually have extra cash at the end of this fiscal year, which we have never had. I go to conferences and people are talking about they're getting nervous because they only have 90 days' cash on hand. Some days I have nine days' cash on hand. So we are slowly coming out of the financial crunch. So is it going to make or break us if

we don't get it? Absolutely not. We're going to carry on with it. Anything is greatly appreciated.

I will take any questions at this time.

CHAIRMAN WILLIAMS: Ouestions?

Okay. Appreciate that approach. Because I know that your, your folks voted in a mill increase to tax themselves for part of your operation of your facility, and that speaks highly of the local effort of that community, to tax themselves to receive the service. Thank you.

MR. TOOKE: Correct. Thank you.

CHAIRMAN WILLIAMS: Next is 846, Hardin Public Schools. This is the activity center pool replacement.

MS. PICHETTE: Thank you, Mr. Chairman.

No. 0846, Hardin Public Schools, activity center pool roof replacement, \$384,300. The applicant is requesting \$384,300, of a total project cost of \$499,590, in Coal Board funds to complete the replacement of the roof at the community pool. The request to the Board is 77 percent of the project cost.

The applicant states the existing roof is 33 years old and sections have degraded the underlayment and produced leaks. The applicant states that the roof is at the end of its useful life.

MR. GERKE: Mr. Chairman, Members of the Board,

Dennis Gerke, superintendent, Hardin schools. I'd address any questions you have.

CHAIRMAN WILLIAMS: What happens if you don't receive the money on this, Superintendent? What are you, what are you folks -- what's your plan?

MR. GERKE: We'll get more five-gallon buckets to put around the pool. We don't, we don't have a plan. I mean, if you -- we'll have to come up with the money somehow. Maybe it will be end-of-year funds if we've got something left over there. You know, we would have to look at money that we don't have earmarked already.

CHAIRMAN WILLIAMS: You've indicated you receive gross proceeds. Do you know what you receive a year?

MR. GERKE: I should know that.

CHAIRMAN WILLIAMS: I know what has been paid out. Interesting that what has been paid out -- over half a billion dollars has been paid out of gross proceeds tax since it was initiated.

MR. GERKE: Uh-huh.

CHAIRMAN WILLIAMS: Half a billion to Big Horn
County, Rosebud County --

MR. GERKE: I'm thinking -- Sorry to interrupt you. I'm thinking that last year, in the vicinity of 350,000. That's what I'm thinking.

CHAIRMAN WILLIAMS: Okay.

MR. GERKE: Because we had to go back and ask
because we forgot to do it, so we had to go back through
that process and re-request all of that money. And you
know, before that, I think that -- before my time, I don't
think a lot of that was requested by the school district.
I can't say that a hundred percent sure. But I'm thinking

the amount is about 350,000 that we receive.

CHAIRMAN WILLIAMS: Yeah. I know. It's just, it's frustrating for us as much as it is for you on moneys that we have available on these projects that we just don't have. So...

MR. GERKE: And I would just like to say we understand that. We're very grateful to the Board what you've given Hardin Schools in the past. And we're going to live with whatever happens, Chairman.

Okay. Let's -- I'm thinking let's go for, let's go for lunch and we'll come back and we'll go through these. And I'll ask the Board Members to kind of think about, you know, what we could do to stretch the dollars, because we have a ways to go on this, and if we can -- which ones we can touch upon and which ones we cannot. I'm going to adjourn for lunch.

Oh. What time is it? Can we get back on at 1:00? Let's do 1:00, shoot for 1:00.

(Lunch recess.) 1 2 CHAIRMAN WILLIAMS: Call the meeting back to order. 3 where we're at, to reiterate, we have \$597,696 4 5 available appropriation to make awards with. That does 6 not mean that that revenue is available, because it is not 7 available. But we can go ahead and make these awards 8 contingent upon available revenue. As a reminder, the funds, available appropriation, is 9 10 to last for the remainder of this year. We do have another meeting coming up in June that I'm sure we will 11 12 have applications for; I would anticipate that to occur. So I will begin the process with the first, 841, and 13 14 entertain a motion to either fund it wholly, partially, or to not fund. Application 841 for law enforcement 15 16 vehicles. The amount requested is \$69,646. I will entertain a motion. 17 18 BOARD MEMBER SCHAFF: Mr. Chairman. CHAIRMAN WILLIAMS: Mr. Schaff. 19 BOARD MEMBER SCHAFF: I would move to fund that 20 21 at \$40,000. 22 CHAIRMAN WILLIAMS: The motion is to fund it at 23 the \$30,000 level. 24 BOARD MEMBER SCHAFF: 40. 25 BOARD MEMBER FREDRICKSON: I'll second that.

4	CHATRMAN HTH TANG - #40 000 Jana J. and data been
1	CHAIRMAN WILLIAMS: \$40,000 level, and it's been
2	seconded. Discussion?
3	Comments from the public?
4	Vote, please.
5	MS. PICHETTE: Vice-Chair Fitzpatrick.
6	VICE-CHAIR FITZPATRICK: That is in my county,
7	which is Big Horn County, so I recuse my vote.
8	MS. PICHETTE: Shawn Fredrickson.
9	BOARD MEMBER FREDRICKSON: Yes.
10	MS. PICHETTE: Amber Henning.
11	BOARD MEMBER HENNING: Yes.
12	MS. PICHETTE: Marianne Roose.
13	BOARD MEMBER ROOSE: Yes.
14	MS. PICHETTE: Tim Schaff.
15	BOARD MEMBER SCHAFF: Yes.
16	MS. PICHETTE: Veronica Small-Eastman.
17	BOARD MEMBER SMALL-EASTMAN: Yes.
18	MS. PICHETTE: Chairman Williams.
19	CHAIRMAN WILLIAMS: Yes.
20	That is approved to move forward at a \$40,000 level
21	contingent upon available funds.
22	The next request is 842, Big Horn County. This is the
23	capital improvement needs for the library. The amount
24	requested is \$30,433.
25	BOARD MEMBER SMALL-EASTMAN: Mr. Chair, I'd like

to make a motion to fund the library capital improvement needs for Big Horn County of \$30,433.

CHAIRMAN WILLIAMS: Second?

Call for a second.

Okay. What I'd like to say, since I don't have a second, my suggestion to the Board is that to go ahead and approve -- or go ahead and make the second, and then that allows it to be out and discussed. And if you -- because you second, if you are not supportive of it does not mean that you are required to vote for it. But at least it gets it out on the table. So I would suggest a second to that request.

BOARD MEMBER SCHAFF: I'll second the motion.

CHAIRMAN WILLIAMS: It's been moved and seconded.

Discussion?

BOARD MEMBER SMALL-EASTMAN: Mr. Chair.

CHAIRMAN WILLIAMS: Yes.

BOARD MEMBER SMALL-EASTMAN: I'd like to speak on behalf of the Big Horn County Library. I've been to that library. It's very small. As far as their computer technology, it is in dire need of, of an upgrade. And I look at the WiFi that they finally got into, into the library. They're very prudent about, you know, turning it off at 5 o'clock or, you know, when they leave in the evening.

And I just feel that there is such a need due to so many people in Big Horn County who do not have access to computers, and so they are able to go to the library to use the computers and do their job applications, do their job research, and also to do their papers where they're -- for college, whether they're online college classes or they're at little Big Horn College. And I just feel that they have a great need for this, for this money.

In addition, I, I remember we accepted a letter from

In addition, I, I remember we accepted a letter from Lame Deer, Northern Cheyenne Water Utilities, that withdrew their, their grant saying that they don't want to use that 47,000. So I'm hoping that this money that's for the library would go towards that; that will be additional funds included in that.

And I'm just kind of wondering if Jennifer might be able to confirm that, with the withdrawal of the Northern Cheyenne Utilities Water application.

MS. OLSON: I'm just going to defer that to Anne, because I think she has the letter that --

MS. PICHETTE: Are you looking for the exact dollar amount that was in the letter they sent?

BOARD MEMBER SMALL-EASTMAN: I believe it was 47,000 that they, that they're withdrawing.

MS. PICHETTE: Was \$45,710 for their software upgrade, and this is a 2017 project.

BOARD MEMBER SMALL-EASTMAN: Okay. Thank you.

And so with that being -- so would it be possible to use this money for Big Horn County technology rather than for Northern Cheyenne, if they're withdrawing that application?

MS. OLSON: So let me, let me answer it this way:

I think that that's really -- So when funds come back in

to, to the Board's consideration, so somebody returns

those funds, those funds would then go back into the Coal

Natural Resource Account. So because it's the prior

biennium, that's where this is funded out of, you can't

direct them to the current biennium.

However, it still just goes back into the Coal Natural Resource Account. So those funds -- I'll go back to the budget spreadsheet that I handed out. Those funds are listed as an obligation as of this moment, right, thinking about it still being obligated under the \$3.4 million obligation. So when that obligation comes out, you'll see that that accrual balance will be modified to show and reflect that those funds are no longer obligated. Then they go back into the cash available account. So it becomes cash that's available.

So when we look at appropriation and revenue in this biennium, you cannot exceed the appropriation amount by \$6.8 million. So if appropriation is, if appropriation is

lower than revenue, that money sits in the account, so you're not -- A dollar is a dollar is a dollar that it turns into. So the direction of \$45,000 is irrelevant.

If revenue is less than appropriation, that \$45,000 still is sitting in the account, it's still available for the Board to access, but it's really, again, a dollar is a dollar is a

So you can't -- so hopefully that makes sense. You can't direct these funds from one biennium to another, one; but two, the money still goes back into the Coal Natural Resource Account. And if revenue, again, exceeds appropriation, that money will be there for the next biennium regardless of where it is.

So you still are only allowed the \$597,696 as appropriation authority to award. So as you're considering awards, that's what is the maximum amount. Revenue sets the minimum; appropriation sets the maximum.

Does that answer your question?

BOARD MEMBER SMALL-EASTMAN: Yes. And because of that money going back into the Coal Board revenue account, you know, it will eventually be recorded as an asset. And so basically it is available eventually when you get through with your accrual.

MS. OLSON: That's correct, and always is, again, tapped out by the appropriation authority of that maximum

amount. And so again, if revenues exceed the appropriation, then that will be really the discretion of the Legislature, if they -- how they give the percentage of 2.9 percent or 5.8 percent to come into the Coal Natural Resource Account, or, and if it comes in lower, they don't -- you know, the Legislature could also modify what's in the balance in the account, they could take that money and put it somewhere else. But that's part of that conversation that would happen at the legislative level.

CHAIRMAN WILLIAMS: Thank you.

Other discussion?

I'll make a comment. I think that Big Horn County has committed \$10,000 to this library capital improvement needs, as identified in their application. And I would encourage them to increase that to do those necessary activities associated with the library capital improvements. I don't think it would take a lot for that to occur, and I would encourage that to occur. I think the library is an important project, but I, but I will not support the funding request as, as, as it is.

Any other discussion?

BOARD MEMBER HENNING: Yes, Mr. Chairman.

CHAIRMAN WILLIAMS: Yes.

BOARD MEMBER HENNING: I just wanted to state

yes, and I agree that this library improvement is a great

1 need. It is important for a community. However, I, I 2 also feel that funding it at the fund requested without 3 having the County look at other funding resources, I feel 4 that there are more sources out there that could fund this 5 project in addition to our funds. I still want to support 6 this, but not at the requested level. 7 CHAIRMAN WILLIAMS: Other questions? Comments? 8 Comments from the public? 9 BOARD MEMBER SMALL-EASTMAN: Mr. Chair. 10 CHAIRMAN WILLIAMS: Yes. 11 BOARD MEMBER SMALL-EASTMAN: You suggested that 12 the County fund the library another 10,000. With that being the case, would you be willing to reduce it by, by 13 14 10,000 and still award them the 20,000, what they need? 15 20,433. 16 17

CHAIRMAN WILLIAMS: I -- but what we have right now, Veronica, is a motion to fund it at the \$30,000 level. It's been seconded. If there's other action other than that, it would need to occur after, after the vote or some type of other motion.

BOARD MEMBER SMALL-EASTMAN: Mr. Chair, I'd like to make an amendment to the motion of --

CHAIRMAN WILLIAMS: Okay.

18

19

20

21

22

23

24

25

BOARD MEMBER SMALL-EASTMAN: -- of reducing the amount from 30,000 to 20,433.

1	CHAIRMAN WILLIAMS: Okay. The motion has been
2	amended to reduce it to 20,433; is that correct?
3	Is there a second on the amendment?
4	BOARD MEMBER HENNING: Second.
5	CHAIRMAN WILLIAMS: The amendment has been
6	seconded. Discussion on that?
7	Okay. Roll call vote, amendment.
8	No, let me just ask (inaudible). Okay. Vote on the
9	amendment.
10	MS. PICHETTE: Vice-Chair Fitzpatrick.
11	VICE-CHAIR FITZPATRICK: Recuse my vote.
12	MS. PICHETTE: Shawn Fredrickson.
13	BOARD MEMBER FREDRICKSON: Yes.
14	MS. PICHETTE: Amber Henning.
15	BOARD MEMBER HENNING: Yes.
16	MS. PICHETTE: Marianne Roose.
17	BOARD MEMBER ROOSE: No.
18	MS. PICHETTE: Tim Schaff.
19	BOARD MEMBER SCHAFF: Yes.
20	MS. PICHETTE: Veronica Small-Eastman.
21	BOARD MEMBER SMALL-EASTMAN: Yes.
22	MS. PICHETTE: Chairman Williams.
23	CHAIRMAN WILLIAMS: No.
24	Okay. On the main motion.
25	MS. PICHETTE: Vice-Chair Fitzpatrick.

1	CHAIRMAN WILLIAMS: Amendment is approved. Now
2	we're going to vote on the main.
3	A STAFF MEMBER: So we have (inaudible) pass,
4	two no, one abstain.
5	BOARD MEMBER ROOSE: You're cutting out. I can't
6	hear you.
7	A STAFF MEMBER: The vote was four, four pass;
8	two no, one (inaudible).
9	BOARD MEMBER SMALL-EASTMAN: So we're moving as
10	amended?
11	CHAIRMAN WILLIAMS: Motion, main motion as
12	amended.
13	MS. PICHETTE: Vice-Chair Fitzpatrick.
14	VICE-CHAIR FITZPATRICK: Recuse my vote.
15	MS. PICHETTE: Shawn Fredrickson.
16	BOARD MEMBER FREDRICKSON: Yes.
17	MS. PICHETTE: Amber Henning.
18	BOARD MEMBER HENNING: Yes.
19	MS. PICHETTE: Marianne Roose.
20	BOARD MEMBER ROOSE: No.
21	MS. PICHETTE: Tim Schaff.
22	BOARD MEMBER SCHAFF: Yes.
23	MS. PICHETTE: Veronica Small-Eastman.
24	BOARD MEMBER SMALL-EASTMAN: Yes.
25	MS. PICHETTE: Chairman Williams.

1	CHAIRMAN WILLIAMS: No.
2	The motion is approved at the 20,433 level.
3	Okay. The next is 843. This is the fairgrounds
4	improvements project. The amount requested there is
5	\$66,785.
6	BOARD MEMBER SMALL-EASTMAN: Mr. Chair, I make a
7	motion to approve Big Horn County application, fairgrounds
8	improvement project, of 50,000 I believe is what you
9	asked?
10	Oh, I understand. Thank you. 66,785.
11	CHAIRMAN WILLIAMS: And second?
12	A BOARD MEMBER: Second.
13	CHAIRMAN WILLIAMS: It's been moved and seconded.
14	Discussion?
15	Vote, please.
16	MS. PICHETTE: Vice-Chair Fitzpatrick.
17	VICE-CHAIR FITZPATRICK: Recuse.
18	MS. PICHETTE: Shawn Fredrickson.
19	BOARD MEMBER FREDRICKSON: Yes.
20	MS. PICHETTE: Amber Henning.
21	BOARD MEMBER HENNING: No.
22	MS. PICHETTE: Marianne Roose.
23	BOARD MEMBER ROOSE: No.
24	MS. PICHETTE: Tim Schaff.
25	BOARD MEMBER SCHAFF: No.

MS. PICHETTE: Veronica Small-Eastman. 1 2 BOARD MEMBER SMALL-EASTMAN: MS. PICHETTE: Chairman Williams. 3 4 CHAIRMAN WILLIAMS: No. 5 The funding on that is not approved. 6 Next is the City of Hardin. This is the high school, 7 complete pavement restoration project. The amount 8 requested is \$129,296. And I will entertain a motion. 9 BOARD MEMBER SMALL-EASTMAN: Mr. Chair, I make a 10 motion not to approve the pavement restoration, just 11 because I feel that Hardin community -- Hardin School 12 District should at least pay a percentage of the 13 (inaudible). And I think that's (inaudible) the agency 14 (inaudible). 15 CHAIRMAN WILLIAMS: Okay. I've got a motion to 16 not act on the \$129,296 request. And I'll lend to those that -- Typically, a motion is in the positive and 17 18 then you vote no on it. And you can make a motion if 19 you --20 BOARD MEMBER SMALL-EASTMAN: Okav. 21 CHAIRMAN WILLIAMS: -- even though you may not 22 want to approve it, and then by not approving it, in the discussion you can make your position known. So I'd like 23 24 to --25 BOARD MEMBER SMALL-EASTMAN: I could switch that

1	motion to approve.
2	CHAIRMAN WILLIAMS: Okay. And second?
3	A BOARD MEMBER: Second.
4	CHAIRMAN WILLIAMS: It's been moved and seconded
5	to approve it at the 129,296 level. Now discussion.
6	BOARD MEMBER SMALL-EASTMAN: Mr. Chair.
7	CHAIRMAN WILLIAMS: Yes.
8	BOARD MEMBER SMALL-EASTMAN: We've already
9	approved for them for the (inaudible), and that was to the
10	City, and yet the Hardin Public School didn't donate a
11	dime. So basically I'm going to vote no for this.
12	CHAIRMAN WILLIAMS: Okay. Thank you.
13	Other discussion?
14	Discussion from the public?
15	Vote, please.
16	MS. PICHETTE: Vice-Chair Fitzpatrick.
17	VICE-CHAIR FITZPATRICK: Recuse my vote.
18	MS. PICHETTE: Shawn Fredrickson.
19	BOARD MEMBER FREDRICKSON: No.
20	MS. PICHETTE: Amber Henning.
21	BOARD MEMBER HENNING: No.
22	MS. PICHETTE: Marianne Roose.
23	BOARD MEMBER ROOSE: No.
24	MS. PICHETTE: Tim Schaff.
25	BOARD MEMBER SCHAFF: No.

MS. PICHETTE: Veronica Small-Eastman. 1 2 BOARD MEMBER SMALL-EASTMAN: 3 MS. PICHETTE: Chairman Williams. CHAIRMAN WILLIAMS: (Inaudible). 4 5 That application is, is denied. 6 Next is 845, Rosebud County. This is a request for 7 health care center equipment. The amount requested is 8 \$60,000. I'll entertain a motion. 9 MS. PICHETTE: Mr. Chairman. Mr. Chairman. if I 10 may, this was the other one on your list of environmental 11 that we do not currently have documentation provided --12 CHAIRMAN WILLIAMS: Okay. 845 is? 13 MS. PICHETTE: Correct. 14 BOARD MEMBER SMALL-EASTMAN: Mr. Chair, I make a 15 motion to approve the Rosebud County Health Care Center's 16 equipment. 17 CHAIRMAN WILLIAMS: At the \$60,000 level? 18 BOARD MEMBER SMALL-EASTMAN: Yes, please. 19 CHAIRMAN WILLIAMS: Okay. This will need the 20 environmental information supplied, depending on where 21 we're going with it. 22 MS. OLSON: Exactly. And it should actually be a 23 motion that (inaudible) environmental should be a 24 determination that the Board makes before a funding 25 determination is made. So we messed up in January, so --

1 CHAIRMAN WILLIAMS: Yeah. MS. OLSON: -- so we fixed that. We can always 2 3 do that, but... CHAIRMAN WILLIAMS: So we'll do that for the 4 5 motion -- make that change on the motion. 6 BOARD MEMBER SMALL-EASTMAN: Make the change, 7 please. 8 MS. OLSON: And that change would be to consider it excluded? 9 10 BOARD MEMBER SCHAFF: I second that. 11 CHAIRMAN WILLIAMS: And that amount was \$60,000. 12 BOARD MEMBER SCHAFF: Mr. Chairman. 13 CHAIRMAN WILLIAMS: Yes. 14 BOARD MEMBER SCHAFF: I think we're voting on the exemption -- or the exclusion first, not the dollar 15 16 amount. 17 CHAIRMAN WILLIAMS: Oh, we are. Okay. Okay. 18 First thing, okay, motion to exclude, you're right. Okay. And a second on that. Discussion? 19 20 BOARD MEMBER ROOSE: This is Marianne, and I 21 would be reluctant to fund the full amount when we heard 22 that they're going to be operating in the black and that 23 they are going to complete this, this project one way or another, and so I would be reluctant to fund that amount. 24 25 CHAIRMAN WILLIAMS: Okay, we're just -- this is

1	just on excluding the environmental.
2	BOARD MEMBER ROOSE: Oh, I'm sorry.
3	CHAIRMAN WILLIAMS: Discussion?
4	Public?
5	Okay. Now we'll vote on that.
6	MS. PICHETTE: Vice-Chair Fitzpatrick.
7	VICE-CHAIR FITZPATRICK: Yes.
8	MS. PICHETTE: Shawn Fredrickson.
9	BOARD MEMBER FREDRICKSON: Yes.
10	MS. PICHETTE: Amber Henning.
11	BOARD MEMBER HENNING: (Inaudible).
12	MS. PICHETTE: Marianne Roose.
13	BOARD MEMBER ROOSE: Yes.
14	MS. PICHETTE: Tim Schaff.
15	BOARD MEMBER SCHAFF: Yes.
16	MS. PICHETTE: Veronica Small-Eastman.
17	BOARD MEMBER SMALL-EASTMAN: Yes.
18	MS. PICHETTE: Chairman Williams.
19	CHAIRMAN WILLIAMS: Yes.
20	Okay. Now we'll have the motion on the requested
21	amount Oh, that's passed. Now we'll have the motion on
22	the equipment at the \$60,000 level.
23	BOARD MEMBER SMALL-EASTMAN: So move.
24	CHAIRMAN WILLIAMS: And second?
25	BOARD MEMBER HENNING: Second.

CHAIRMAN WILLIAMS: Discussion? 1 2 BOARD MEMBER SMALL-EASTMAN: Mr. Chair. 3 CHAIRMAN WILLIAMS: Yes. BOARD MEMBER SMALL-EASTMAN: I would like to see 4 5 Rosebud County receive this here hospital care equipment 6 just because there is so many of my constituents in 7 Rosebud County and Northern Cheyenne Reservation and on 8 the Crow Reservation that do use their services there. 9 They do -- their elderly people are housed there. And I 10 just feel that, you know, we need to help this hospital to get into modern times. And so I feel that, you know, the 11 12 better care that these constituents of mine have, I think the better off they are, especially with their, their need 13 14 for comfort. CHAIRMAN WILLIAMS: Other discussion? 15 16 Comments from the public? BOARD MEMBER HENNING: Mr. Chairman, I do have a 17 comment as to the amount. I am in favor of supporting 18 19 this cause, but not at the \$60,000 amount. I would 20 consider (inaudible). 21 BOARD MEMBER SMALL-EASTMAN: Mr. Chair 22 (inaudible) that we go with 50,000. I'm making an 23 amendment for 50,000. 24 BOARD MEMBER SCHAFF: A little too high for me. 25 CHAIRMAN WILLIAMS: Amendment to the motion to

1 reduce it to the \$50,000 level. Second? 2 BOARD MEMBER HENNING: I'll second. CHAIRMAN WILLIAMS: It's been moved and seconded 3 4 for the \$50,000 level. Discussion? 5 BOARD MEMBER HENNING: Again, Mr. Chairman, I am 6 reluctant to fund at the \$50,000 range. I would consider 7 more maybe \$10,000. I know that's quite lower than the 8 ask, what they requested. But given the funds that we have available, I'd rather support this as best we can 9 10 with (inaudible). So without further discussion, yes, Mr. Chairman, I'll move to amend the, the amount from 11 12 \$50,000 to \$10,000. BOARD MEMBER ROOSE: This is Marianne. I'll 13 14 second. 15 CHAIRMAN WILLIAMS: Okay. We've got an 16 amendment -- I don't think we've ever done that before --17 and we've got a second on that to the \$10,000 level. 18 Discussion on that? 19 BOARD MEMBER SMALL-EASTMAN: (Inaudible). 20 CHAIRMAN WILLIAMS: Pardon me? 21 BOARD MEMBER SMALL-EASTMAN: I'm just looking 22 through your application here. And you've raised your 23 millage rate for Big Horn -- or for Rosebud County, and I'm just checking to see if there was a match. I couldn't 24

find if you had a match or anything.

25

1	MR. TOOKE: I mean, the match would be whatever
2	is not funded by the grant, so it will just it will
3	come out of any expected reserves that we would have had
4	at the end of the year. But the match would be whatever
5	isn't funded over a period of time.
6	BOARD MEMBER SMALL-EASTMAN: Okay. Over a period
7	of time.
8	MR. TOOKE: Correct.
9	BOARD MEMBER SMALL-EASTMAN: But the need is now;
10	correct?
11	MR. TOOKE: Correct.
12	BOARD MEMBER SMALL-EASTMAN: Okay. Thank you.
13	CHAIRMAN WILLIAMS: Other discussion?
14	Comments from the public?
15	We'll vote on the second amendment.
16	BOARD MEMBER ROOSE: And John, would you clarify
17	what that vote is.
18	CHAIRMAN WILLIAMS: The amendment has been
19	amended to reduce it to a \$10,000 reward award.
20	BOARD MEMBER ROOSE: Thank you.
21	CHAIRMAN WILLIAMS: Other comment?
22	Okay. We'll go with the second amendment.
23	MS. PICHETTE: Vice-Chair Fitzpatrick.
24	VICE-CHAIR FITZPATRICK: Yes.
25	MS. PICHETTE: Shawn Fredrickson.

1	BOARD MEMBER FREDRICKSON: Yes.
2	MS. PICHETTE: Amber Henning.
3	BOARD MEMBER HENNING: (Inaudible).
4	MS. PICHETTE: Marianne Roose.
5	BOARD MEMBER ROOSE: Yes.
6	MS. PICHETTE: Tim Schaff.
7	BOARD MEMBER SCHAFF: Yes.
8	MS. PICHETTE: Veronica Small-Eastman.
9	BOARD MEMBER SMALL-EASTMAN: No.
10	MS. PICHETTE: Chairman Williams.
11	CHAIRMAN WILLIAMS: Yes.
12	And now vote on the first amendment.
13	MS. PICHETTE: Vice-Chair Fitzpatrick.
14	VICE-CHAIR FITZPATRICK: The first amendment for
15	50,000.
16	CHAIRMAN WILLIAMS: 50,000.
17	MS. OLSON: So the first amendment to the motion.
18	VICE-CHAIR FITZPATRICK: So if we already amended
19	for 10, how
20	CHAIRMAN WILLIAMS: Okay.
21	VICE-CHAIR FITZPATRICK: That's my question.
22	CHAIRMAN WILLIAMS: What has to occur in order
23	for the award We've got a couple attorneys here, so you
24	can we go Okay. We've approved it on the second

1	amendment, we approve that, and then we go back to the
2	main motion, approve that, and the award is for \$10,000.
3	VICE-CHAIR FITZPATRICK: Yes.
4	MS. PICHETTE: Shawn Fredrickson.
5	BOARD MEMBER FREDRICKSON: Yes.
6	MS. PICHETTE: Amber Henning.
7	BOARD MEMBER HENNING: (Inaudible).
8	MS. PICHETTE: Marianne Roose.
9	BOARD MEMBER ROOSE: I can't hear's Amber's vote.
10	BOARD MEMBER HENNING: Yes.
11	BOARD MEMBER ROOSE: Thank you.
12	Yes.
13	MS. PICHETTE: Marianne, I think I (inaudible)
14	your vote. Will you please state your (inaudible).
15	BOARD MEMBER ROOSE: Yes.
16	MS. PICHETTE: Thank you.
17	Tim Schaff.
18	BOARD MEMBER SCHAFF: Yes.
19	MS. PICHETTE: Veronica Small-Eastman.
20	BOARD MEMBER SMALL-EASTMAN: Yes.
21	MS. PICHETTE: Chairman Williams.
22	CHAIRMAN WILLIAMS: Yes.
23	So the award is, is approved for \$10,000 level. Thank
24	you. And then previous to that excluded the environmental
25	requirement. Okay.

1	The next is 846, Hardin Public School, activity center
2	pool roof replacement, and the amount requested is
3	284,000.
4	MS. BARNES: Mr. Chairman, I'm sorry to
5	interrupt, but I think we still need to actually make a
6	or take a vote on the main motion that was first made by
7	Veronica.
8	CHAIRMAN WILLIAMS: I'm sorry.
9	MS. BARNES: And her main motion was for \$60,000.
10	CHAIRMAN WILLIAMS: 60,000. Oh, I thought we had
11	covered that. Okay. I'm sorry. Thank you.
12	VICE-CHAIR FITZPATRICK: So when did we vote on
13	the 50? Was that
14	MS. BARNES: So that was the last one.
15	VICE-CHAIR FITZPATRICK: That was the 50 we
16	voted.
17	MS. BARNES: That was the \$50,000 amendment.
18	VICE-CHAIR FITZPATRICK: So we approved 50?
19	MS. BARNES: You just approved 50.
20	VICE-CHAIR FITZPATRICK: And we approved 10.
21	MS. BARNES: And you approved 10.
22	VICE-CHAIR FITZPATRICK: So that's 60,000.
23	MS. BARNES: So now we're onto the main motion of
24	\$60,000.
25	CHAIRMAN WILLIAMS: Okay. Vote on the main

1	motion.
2	MS. BARNES: So we want to say it's \$60,000 as
3	amended to \$50,000 as amended to \$10,000. So you're still
4	voting right now to amend to award the project at
5	\$10,000.
6	CHAIRMAN WILLIAMS: Right. Okay.
7	MS. BARNES: Okay.
8	CHAIRMAN WILLIAMS: Okay, on the main as amended
9	amended.
10	MS. PICHETTE: Vice-Chair Fitzpatrick.
11	VICE-CHAIR FITZPATRICK: Yes.
12	MS. PICHETTE: Shawn Fredrickson.
13	BOARD MEMBER FREDRICKSON: Yes.
14	MS. PICHETTE: (Inaudible).
15	BOARD MEMBER HENNING: Yes.
16	MS. PICHETTE: Marianne Roose.
17	BOARD MEMBER ROOSE: Yes.
18	MS. PICHETTE: Tim Schaff.
19	BOARD MEMBER SCHAFF: Yes.
20	MS. PICHETTE: Veronica Small-Eastman.
21	BOARD MEMBER SMALL-EASTMAN: 60,000. Yeah
22	(inaudible).
23	MS. PICHETTE: Chairman Williams.
24	CHAIRMAN WILLIAMS: Yes.
25	The award is for \$10,000. Thank you.

The next is the Hardin Public Schools activity center 1 pool roof. The amount requested is \$284,000. 2 entertain a motion. 3 4 5 6 7 8 9 10 Discussion? 11 12 13 14 15 16 CHAIRMAN WILLIAMS: Other discussion? 17 BOARD MEMBER ROOSE: I would be open to 18 19 considering a lesser amount also, but certainly not the 20 full amount of 284 -- 384,000, or 284 I guess they reduced 21 it to. 22

23

24

25

BOARD MEMBER SCHAFF: So moved. CHAIRMAN WILLIAMS: For the full amount? BOARD MEMBER SCHAFF: Yeah, so we can discuss it. CHAIRMAN WILLIAMS: A second? BOARD MEMBER HENNING: Second. CHAIRMAN WILLIAMS: It's been moved and seconded for discussion at the full amount of \$284,000. BOARD MEMBER HENNING: Again, Mr. Chairman, I, I just don't know if we have the funds available at this point in time to fund at the full amount. I'm, I'm willing to look at a, a lower amount. That, I think that is kind of where we have to discuss.

CHAIRMAN WILLIAMS: Okay. And I agree (inaudible). Let me ask the superintendent.

If we made an award on this, let's say in the \$100,000 area, could you accomplish the task of that project?

does -- or maybe I could ask you this also, what is the minimum that you could work with, knowing the situation we're in?

Would this accomplish it?

BOARD MEMBER SMALL-EASTMAN: Could I ask how much it would cost just to fix the roof? Because I remember -- I recall, when I was going through this grant, that there was other costs that were (inaudible). You know, like the (inaudible) work around the pool and under the pool.

MR. GERKE: Yeah. Mr. Chairman,

Ms. Small-Eastman. The bid we got was the -- What was the

percentage of (inaudible) for? What percentage of that

was it?

MS. PICHETTE: Push to talk. Sorry. The 384,300 that was the original request of the \$499,590 was 77 percent.

MR. GERKE: Okay. So 500 grand was the estimate that we got to fix that. That roof has been on that building since the building was built. It's 33 years old. So we've got it down to 284. Okay? Now, to answer your question, that's a hard question to answer. Okay? If I'm going to be the superintendent there, John, we're going to commit to get the project done if you would give us \$100,000. But, you know, that's not my choice, that's the board's choice.

And so we would have to look at our -- you know, we'd have to look at our funding at the end of the year. We would have to look at our Impact Aid dollars. We would have to look at our general fund. We would have to look at our, our coal proceeds. So that's a really hard question to answer that you ask me.

CHAIRMAN WILLIAMS: If you know that we are willing to work with 100,000, (inaudible) you carry that back to the board and give us a yes or no?

MR. GERKE: Yes. And I have a board meeting Tuesday night.

CHAIRMAN WILLIAMS: Okay. Let me ask you this question. I don't recall the answer to that. When did you have this scheduled to work on it?

MR. GERKE: Well, if we, if we got the money, we -- I mean, it's gone this long. Okay? This, this roof just didn't start leaking. All right? We've got by since I've been here, and this is my fourth year. And so it would be something that can wait, but it's -- the problem's not going to go away. The problem's always going to be there.

But we also have other challenges, as you know, with our feasibility study with the pool in Hardin. And so part of our long-term plan was to do it in steps, okay, this being the first step. And I think the district is committed to that, depending on district funds we have, the help of the Coal Board.

So to answer your question as honestly as I can, I believe that our current board is committed to making the improvements they need to have on that community center. Because it's not just for Hardin. Crow uses it, and Sidney knows that, and a lot of -- We have a lot of people that use that. And our revenues from last year from that, I think I presented those to you, were less than \$100,000 that we take in in revenue, and the school district pays out the rest. We pay all the help. We pay all the maintenance. We pay all of those costs, to the tune of almost \$600,000 a year. So we're taking over a half-million-dollar loss on keeping that open.

In a nutshell, that's, that's what it is. And those are hard numbers. I think I included that with everything. So...

CHAIRMAN WILLIAMS: Okay. Thank you. So we could --

BOARD MEMBER SMALL-EASTMAN: Mr. Chair.

CHAIRMAN WILLIAMS: Yes.

BOARD MEMBER SMALL-EASTMAN: I was just looking at their, page 8-5 of their application where they have 412,000 to operate and maintain the swimming pool, and then their annual revenue for the swimming pool is 47,924.

So I'll be a proponent for the 100,000.

And I would also like to (inaudible) keep that swimming pool open (inaudible) Crow Fair to do maintenance (inaudible) for the school year (inaudible) have it before Crow Fair. During Crow Fair, you have so -- you have at least 10,000 people that come to Crow Fair that need a place to shower, need a place to go swim. And I think that if they kept that swimming pool open during that week and weekend, that that would add a big, huge revenue to the swimming pool. That's my suggestion.

CHAIRMAN WILLIAMS: A motion?

A STAFF MEMBER: You do have a motion and a second to consider funding.

CHAIRMAN WILLIAMS: To consider the funding.

A STAFF MEMBER: At 284.

CHAIRMAN WILLIAMS: At 284. Let's, let's do this: I'm going to do a substitute motion to (inaudible) at the \$100,000 level.

BOARD MEMBER HENNING: I'll second.

CHAIRMAN WILLIAMS: It's been moved and seconded for the substitute motion for \$100,000 level. Discussion? Discussion of the public?

Vote on the substitute motion.

MS. PICHETTE: Vice-Chair Fitzpatrick.

VICE-CHAIR FITZPATRICK: Recuse.

1	MS. PICHETTE: Shawn Fredrickson.
2	BOARD MEMBER FREDRICKSON: Yes.
3	MS. PICHETTE: Amber Henning.
4	BOARD MEMBER HENNING: Yes.
5	MS. PICHETTE: Marianne Roose.
6	BOARD MEMBER ROOSE: Yes.
7	MS. PICHETTE: Tim Schaff.
8	BOARD MEMBER SCHAFF: Yes.
9	MS. PICHETTE: Veronica Small-Eastman.
10	BOARD MEMBER SMALL-EASTMAN: (Inaudible).
11	MS. PICHETTE: Chairman Williams.
12	CHAIRMAN WILLIAMS: (Inaudible).
13	Approved to go \$100,000 level on that request.
14	MS. OLSON: So Mr. Chairman, we need to vote on
15	the main motion, then.
16	CHAIRMAN WILLIAMS: On the main Not on the
17	main. I did a substitute. I did a main or I did a
18	substitute, so that takes the place of the main.
19	MS. OLSON: Got it. Thank you, Mr. Chairman.
20	CHAIRMAN WILLIAMS: Okay. Now we'll go with
21	MS. OLSON: Mr. Chairman, if I could interject
22	just to give you an update. So that leaves right now,
23	with all of those awards, the remaining appropriation
24	amount at \$427,263.
25	CHAIRMAN WILLIAMS: Thank you.

MS. OLSON: And then also, I just wanted to revisit the first motion that you made on grant No. 0841. The motion was made contingent upon available funds. So just to clarify that the rest of the motions are also --

CHAIRMAN WILLIAMS: Yes. We need to, yeah, carry that all the way through. Because everything is contingent on -- Are we okay with that, Board?

BOARD MEMBER ROOSE: Yes.

CHAIRMAN WILLIAMS: (Inaudible) available funds.

MS. OLSON: Okay. Great.

And then just also wanted to -- especially as you start to look at your new tabled applications. In January, you prioritized the projects in order of your priority decision. And just as a reminder, you already voted on the MSU -- excuse me, the BSEDA application, rescinding the MSUB application. The MSU Billings application that was rescinded was the first on the list in January. So that moves that down to the collective.

So what we have been doing as staff is looking at the Board's decision if they're not prioritized on a group basis based on the meeting date. So what that means is that (inaudible), as an example when the \$1.5 million was awarded in June without prioritization, we waited until available revenue of 1.5 million was available in the account before we moved forward with any of those

contracts, because we didn't want to prioritize which order you thought -- you wanted to fund those projects in.

So just also to reiterate, this meeting, without that prioritization, we'll be looking at these as a lump group sum, including the BSEDA application, unless you otherwise dictate. And of course, we would recommend that you prioritize in a way that you, you so choose.

CHAIRMAN WILLIAMS: Okay. So what you said is that we're going to go through as, as the numbers are -- as the numbers come up unless there's any other type of prioritization from the Board.

MS. OLSON: Actually, right now that is what we, what you decided in January. At this point, you haven't made a decision to prioritize any of them. So just as a reminder, we prioritized January so we can just walk through -- as funding is available, through each project. You haven't decided prioritization for this meeting. You can choose to do that however you want to. That could be numbers, that could be order of preference and priority, readiness to proceed, any number of things.

CHAIRMAN WILLIAMS: You know, my suggestion to the Board is we just allow that to continue on as the numbers should occur, unless there -- (inaudible) have not heard of any other situation that would, unless board members have any other situation, that would make one a

higher priority than any of the others as we've identified them.

BOARD MEMBER ROOSE: Mr. Chairman. This is

Marianne. I do have a question. So are you saying, then,

that Big Sky Economic Development would be the last

numbered request to be funded?

MS. OLSON: If we go with the grant number, BSEDA's application number is 0848, and, as an example, Big Horn County law enforcement upgrade that was just awarded, \$40,000 contingent upon available funding, is 0841. So the tabled projects that were originally -- that you just went through would actually get the funding before BSEDA would.

BOARD MEMBER ROOSE: I guess I have a problem with that. We've already hashed this out over three meetings, and then -- so now we've put them back to the bottom of the list. And I, I disagree with that.

CHAIRMAN WILLIAMS: Okay. What I'll do is I'll ask the Board which direction they would like to head on this.

BOARD MEMBER SCHAFF: Mr. Chairman.

CHAIRMAN WILLIAMS: Yes.

BOARD MEMBER SCHAFF: When Mr. Kennedy made his timeline, can -- have you guys got notes on what he said his timeline was?

CHAIRMAN WILLIAMS: 2019.

MS. OLSON: What I had was that he's going to go to bid in December of 2018 with construction beginning in spring of 2019.

BOARD MEMBER SCHAFF: So they wouldn't need access to those funds until 2019.

MS. OLSON: As I recall, Mr. Kennedy's comments were to that effect. Yes.

BOARD MEMBER ROOSE: So this is Marianne. I have a question again. So if we put it at the bottom of the list, and then the next time around it still could be moved to the bottom of the list, and so when do we step up to the plate and actually fund them?

MS. OLSON: This, this is just an award. And I just will add this for context (inaudible). In some of our other programs at Commerce, we establish startup conditions. They're pretty easy. (Inaudible) designation of the depository form, signatory form, updated implementation schedule, and budget. But one other thing that we ask for is the firm commitment of other leveraged funds before they get to proceed forward.

So again, the Board can decide if you want to go through that by grant number, alpha numeric, any number of things. But that could be also something where it's contingent upon available other -- firm commitment of

other available non-Coal Board funds. So you have -Hopefully I'm not confusing. You have Coal Board revenue
that's coming in that we're waiting upon, but then as the
other non-Coal Board funds come available, if there's some
sort of pending, you could actually say, you know, first
come, first serve in regards to available funds and then
next startup conditions, basically non-Coal Board funds.
And then if they are tied, that could be, then, the order
of number. I don't want to make it complex, but just as a
thought.

wanted -- again, Mr. Kennedy (inaudible) have (inaudible) million already raised. They still have to reach the 5 million. Again, he hopes to do that by, by December of this year. So again, when we're talking about prioritization, I, I understand the, the history of this specific grant application, but I don't think that it's imperative that it be moved up to the very top or make that prioritization different based on their specific timeline. Again, we can talk about that if there's a specific motion, but that's just based on what Mr. Kennedy said earlier.

So I guess, Mr. Chairman, I would make a motion to (inaudible) these grants that (inaudible) number.

CHAIRMAN WILLIAMS: Okay. It's been moved to

1 award (inaudible) by grant, (inaudible) grant number. 2 Second? 3 A BOARD MEMBER: Second. CHAIRMAN WILLIAMS: It's been moved and seconded. 4 5 Discussion? 6 BOARD MEMBER SMALL-EASTMAN: Mr. Chair, since 7 we've discussed MSUB, you know, at the last --8 BOARD MEMBER ROOSE: (Inaudible). 9 BOARD MEMBER SMALL-EASTMAN: (Inaudible) you all 10 intents what was going on and, you know, with the, how do 11 you say, the oversight of the agency to agency. I would 12 prefer just to leave (inaudible) at 833 and even though they take another (inaudible) like to see (inaudible). 13 14 CHAIRMAN WILLIAMS: Okay. Other discussion? BOARD MEMBER ROOSE: I couldn't hear -- I 15 16 couldn't hear Veronica's comment. She was cutting in and 17 out. 18 CHAIRMAN WILLIAMS: Her, her wish is that the 19 MSUB, or the Big Sky Economic Development, actually, that 20 project be moved at the top and set that out --21 BOARD MEMBER ROOSE: I agree. 22 CHAIRMAN WILLIAMS: -- as a priority. 23 Discussion? 24 Okay. We'll need a motion. We have a motion to move

it as the grant numbers are allocated and listed.

25

Ιf

1 there are any other motions. 2 BOARD MEMBER ROOSE: I would like to see the Big Sky Economic Development be at the top of the list. 3 4 BOARD MEMBER SMALL-EASTMAN: So moved. 5 CHAIRMAN WILLIAMS: Are you making that motion, 6 Marianne? 7 BOARD MEMBER ROOSE: Yes, I will. 8 BOARD MEMBER SMALL-EASTMAN: I second that. 9 CHAIRMAN WILLIAMS: Okay. So you're amending the 10 motion that is before us on going with the number and you're amending it to move the Big Sky Economic 11 12 Development up in front of all those others. 13 BOARD MEMBER ROOSE: Yes, I am. 14 CHAIRMAN WILLIAMS: And I've got a second on 15 that Discussion? 16 BOARD MEMBER HENNING: Mr. Chairman, I quess I 17 would like a clarification on the motion, whether it's 18 moving up to the very top of what has been allocated thus 19 far or back to the original MSUB grant number. 20 CHAIRMAN WILLIAMS: Marianne, what's your --21 BOARD MEMBER ROOSE: I don't know. I quess I'm 22 not sure what that number was and what she's saying. Because if it's a lesser number, it would automatically go 23 24 to the top if you're going by the MSUB. However, we 25 rescinded that and we voted on the Big Sky Economic

1 Development, and if I understand this correctly, that 2 number is a 848, which would put it at the bottom of the 3 list unless we vote to move it to the top. Is that 4 correct? The, the original number for MSUB is null and 5 void is it not? 6 CHAIRMAN WILLIAMS: That's correct. So what --7 are you suggesting, then, that we would move it up in 8 front of 841, which is the Big Horn County law enforcement vehicle? Is that --9 10 BOARD MEMBER ROOSE: Yes, I would. 11 CHAIRMAN WILLIAMS: Is that what you're --12 motion? 13 BOARD MEMBER ROOSE: Yes. CHAIRMAN WILLIAMS: Okay. And that's amended to 14 15 the motion to use the numerical. Okay. 16 MS. PICHETTE: Mr. Chairman. 17 CHAIRMAN WILLIAMS: Yes. 18 MS. PICHETTE: Just for the record, could we get a clarification. Is it being moved back to -- we heard 19 20 top of list and before 0841. Is it before 0841 or back 21 with the other awarded above 0833? 22 CHAIRMAN WILLIAMS: Before 841. Before 841, the 23 Big Horn County law enforcement vehicle. 24 BOARD MEMBER ROOSE: And is that not because the 25 other number would no longer apply? Would it?

MS. OLSON: The way --

CHAIRMAN WILLIAMS: The new number is 848, Bia Sky Economic Development, so you would be moving 848 up in front of 841; correct?

MS. OLSON: Yes, just so you know our process, so when BSEDA submitted that application, we assigned it the next number in line, so that's how it got 0848. We did not preserve the 0832 number from MSU Billings because that was a different application, is how we viewed it.

CHAIRMAN WILLIAMS: Okay. Everybody got it? Okay.

BOARD MEMBER ROOSE: I guess I just have one question. It was a different application, but in reality it really was the same application, just the change in name: right?

It's a change -- 84 --CHAIRMAN WILLIAMS: Yes. the new number is 848. Big Sky Economic Development is the grantee.

BOARD MEMBER ROOSE: I understand that. just -- I just find it strange that it didn't have the same number it had before, when actually it's the same request; the name has just been changed. So that's my comment.

CHAIRMAN WILLIAMS: Okay. So we've done the discussion. We'll go with the amendment. Vote.

1	VICE-CHAIR FITZPATRICK: Which amendment are we
2	going with?
3	CHAIRMAN WILLIAMS: We would move the
4	amendment is to move 848 in front of 841, which is the
5	Big Horn County law enforcement vehicle. So we would move
6	it in front of all of the actions that we have just
7	completed and go down the list. So that's the amendment.
8	Anne, the vote.
9	MS. PICHETTE: Vice-Chair Fitzpatrick.
10	VICE-CHAIR FITZPATRICK: Yes.
11	MS. PICHETTE: Shawn Fredrickson.
12	BOARD MEMBER FREDRICKSON: Yes.
13	MS. PICHETTE: Amber Henning.
14	BOARD MEMBER HENNING: Yes.
15	MS. PICHETTE: Marianne Roose.
16	BOARD MEMBER ROOSE: Yes.
17	MS. PICHETTE: Tim Schaff.
18	BOARD MEMBER SCHAFF: Yes.
19	MS. PICHETTE: Veronica Small-Eastman.
20	BOARD MEMBER SMALL-EASTMAN: Yes.
21	MS. PICHETTE: Chairman Williams.
22	CHAIRMAN WILLIAMS: Yes.
23	Now we'll go with the main vote.
24	MS. PICHETTE: Vice-Chair Fitzpatrick.
25	VICE-CHAIR FITZPATRICK: What's the main vote?

MS. PICHETTE: The motion is that all (inaudible) 1 2 order. 3 VICE-CHAIR FITZPATRICK: Yes. MS. PICHETTE: Shawn Fredrickson. 4 5 BOARD MEMBER FREDRICKSON: Yes. 6 MS. PICHETTE: Amber Henning. 7 BOARD MEMBER HENNING: Yes. 8 MS. PICHETTE: Marianne Roose. 9 BOARD MEMBER ROOSE: Yes. 10 MS. PICHETTE: Tim Schaff. 11 BOARD MEMBER SCHAFF: Yes. MS. PICHETTE: Veronica Small-Eastman. 12 13 BOARD MEMBER SMALL-EASTMAN: (Inaudible). 14 MS. PICHETTE: Chairman Williams. 15 CHAIRMAN WILLIAMS: Yes. 16 Okay. (Inaudible) with the new business, and that is grant request 847. This is the City of Lodge Grass. 17 18 BOARD MEMBER ROOSE: So could you clarify that 19 last vote, Mr. Chairman. 20 CHAIRMAN WILLIAMS: Okay. What has occurred is 21 that 848, Big Sky Economic Development, MSU Billings 22 science project, has been moved in front of all of those tabled applications. So it's been moved in front of 23 24 841 and 842 and so on. 25 BOARD MEMBER ROOSE: Thank you for the

clarification.

2 CHAIRMAN WILLIAMS: You bet.

Okay. For Big Sky Economic Development -- or 847, City of Lodge Grass, community revitalization project. The requested amount is \$324,600.

MS. PICHETTE: Mr. Chairman, 0847, City of Lodge Grass, community revitalization project, \$324,600. The applicant is requesting \$324,600, of a total project cost of \$517,195, in Coal Board funds to complete a Lodge Grass city renewal project. The request to the Board is 63 percent of the project (inaudible).

(Inaudible) to purchase (inaudible) machinery to maintain safety and aesthetics, which currently the City has insufficient machinery to do so. The applicant states the project would increase safety by allowing for tree removal, broad scale cleanup, solid waste cleanup, addressing other public dangers, and subsequent maintenance. The applicant has plans to build a small business center.

MAYOR DABNEY: Hello, Chairman and Board. I've been waiting to say good morning to you guys all day. Is it okay if I approach?

CHAIRMAN WILLIAMS: Sure.

MS. PICHETTE: Shawn and Marianne, currently the mayor is providing a handout to the Board. We will get

you copies.

BOARD MEMBER ROOSE: Thank you.

MAYOR DABNEY: My name is James Quincy Dabney. I am the mayor of Lodge Grass. First -- so obviously, that is a big number for everything that's going on today. I'd also like to say I was a, from 2007 to 2017, heavy equipment operator at the coal mine at (inaudible) just about a half hour east of Hardin. And I guess I'll do a, more of a story line to kind of fill you in.

I'm not sure all of you know Lodge Grass's history.

In the past year we've had quite a lot of stuff going on.

We had a triple murder over there, and that's kind of what prompted me to even think about running for mayor.

Because I've been in the construction world my whole life.

And so actually, we've already done quite a bit of change going on.

So with the equipment that we are looking at, if I were to just put it in order, if you go to the second page. So yes, the main (inaudible) need. We do have a street sweeper. It's quite old, and I don't think the repairs are -- would be able to happen on this. So to probably cut the street sweeper out. But the skid steer at \$39,000, it has a street sweeper attachment, which we could do the, the sidewalks and then move everything out of the way there and then be able to pick it up further

with that.

And the trees are reaching (inaudible). We have 2550 (inaudible) all over the houses, and in December we had five drop. One dropped right, right behind the city hall and two were right in the street. So yeah, that was kind of one of the main focuses, was (inaudible). That would just -- that would be moving forward with the tree cleanup, which we would do in small, small (inaudible).

But moving forward (inaudible), if you switch to the, sorry, the third page was the equipment. The second page is something that sparked the community to (inaudible). So if you guys know Lodge Grass, (inaudible) has (inaudible) downhill dramatically. But there is a vision and there are people in the community that are ready for change. And as where the vision has moved forward in this picture, on top is a family that their house was basically condemned, so they asked the community if they would like the windows, the doors, anything that they would need inside the house. They stripped it, then they demolished it.

And Raising Places -- you can see the picture better on the bottom. Together We Are Raising Lodge Grass. And in Crow, it is the Valley of the Chiefs. And so we got together with this nonprofit, Raising Places, and we got a Bobcat from Sheridan and we got a scissors lift -- scissor

lift, which isn't exactly what you would need to trim the trees properly, but that branch was ready to go. new trailer that they got on the bottom picture, that branch that we cut off was directly above that. And so we made the steps to remove that.

The City was involved. I asked my maintenance man to bring in the backhoe, and he removed all the stuff that was inside; furnace, hot water heater, all that big stuff. And we filled it, and there you go. They're -- there's a family that is (inaudible).

So the community, we brought them together. No one asked for any money. Everybody's hearts are gold for helping move Lodge Grass forward. And we had the entire community show up, so we got some food together and we fed them.

And that was just a little bit of insight, but I'll go ahead for questions because I don't want to go too much further.

CHAIRMAN WILLIAMS: Okay. Thanks, Mayor. sure you've had an opportunity to go through the, the staff report.

> MAYOR DABNEY: Yeah.

CHAIRMAN WILLIAMS: And there's a lot of things within the staff report that need to be fixed --

> MAYOR DABNEY: Yeah.

CHAIRMAN WILLIAMS: -- with your application.

And my suggestion, and I know you've got a tough job in front of you, a new mayor and everything, would be to come back and visit with us and break out those items that have priority with you being able to accomplish the tasks of operating the city. Also with the understanding of what we have as available funds.

MAYOR DABNEY: Yes, sir.

CHAIRMAN WILLIAMS: So that's my suggestion.

This is your first shot at something like this. Break it down piecemeal, prioritize it on what your plans are to perform those functions necessary for your city's operation.

MAYOR DABNEY: Yes.

CHAIRMAN WILLIAMS: That's, that's my suggestion to you. And that's just, just me. But I'll, I'll open to questions from the Board.

MAYOR DABNEY: Okay. Yes. I agree. That was one of the main -- the prioritizing, the equipment. So I know that's a large number. But one thing I did like -- So the teens -- So it wasn't a campaign effort, but I walk the streets normally, and I was walking the streets and just interacting with everyone. I went door-to-door just seeing where the community was. I'm just going to -- Another little story line.

Part of the prioritizing was the small city business center. So with the lack of jobs and the lack of money that was there, it's a 420-square-foot house, three-bedroom style. Take out the three bedrooms, leave the bathroom, and bring in computers. And we talked to Little Big Horn College, and they are ready and willing to conduct their GED program there.

And so with walking the streets, there is probably about 15 children from 12 to 16, unfortunately, that are -- dropped out. So we would be able to bring them in, do some activities, and encourage them for furthering their education. And that would be one of them.

So yes, for prioritizing, that would probably be...

CHAIRMAN WILLIAMS: Thank you.

Other comments from the Board?
Other comments from the public?

MS. BARNES: Mr. Chairman, if I may, I would just point out your ARM that you have regarding submittal deadlines.

So during the February meeting when you waived the 45-day requirement and the 10-day requirement, that's something that you would also have to waive in this case, the 10-day requirement, which says: Other matters shall be submitted to the administrative officer 10 days prior

to board consideration. And then there is the exception, that the Board has the discretion to make an exception to that rule.

So in this case, there was some more documentation that was just provided, and so if you would like to consider that, I think you should actually make the exception -- or make an exception to that middle deadline of 10 days.

CHAIRMAN WILLIAMS: What I was, what I was thinking about (inaudible) bring this up and deny this application and vote it down, and then allow them to resubmit -- and encourage them to resubmit a new application at the next meeting, but do it in a, kind of a reasonable approach on items that you feel are (inaudible). That's, that's my thought.

BOARD MEMBER SMALL-EASTMAN: Mr. Chair.

CHAIRMAN WILLIAMS: Yes.

BOARD MEMBER SMALL-EASTMAN: What about tabling it, so then that way they can still keep their place on priority, you know (inaudible).

CHAIRMAN WILLIAMS: Well, I think with the way that it's been put together, I think that would -- my thought is it would make it cumbersome to go through, because then we would be dealing with the same application. I would rather see them submit a new

application based on the critical comments that were made here in the report and then list out items that have priority for you. That's -- I think that would be the simplest way to do it. Okay?

Other questions? Other comments?

MS. DOYLE: Can I give public comment now?

CHAIRMAN WILLIAMS: Sure.

MS. DOYLE: Okay. So my name is Megkian Doyle.

I'm the director for Raising Places, which is the grassroots group that works in Lodge Grass with the community improvement program. And our fiscal sponsor is Big Horn valley Health Clinic in Big Horn Valley -- or in Big Horn County rather.

So the cleanup and -- we have -- The cleanup itself is a majority of the prioritized list that we have as a result of an eight-month planning grant that we received from the Robert Wood Johnson Foundation, which is a \$60,000 grant that we used to coordinate and do research in the community. We spoke to almost everyone in the community, even the people that are not normally getting spoken to, about where they want to see the community grow.

And the result of that was that there are nine projects which you have in your handout here that the community has begun developing, and there are teams

developing each of these projects. So the small business incubator is one of those. The Lodge Grass Renewal Initiative is one of those, which also, the cleanup is only half of that. The other portion of that is helping individual homeowners with home repairs and getting 72 percent substandard housing back into the standard area.

The third one is a functional community center. There is a Family Healing Center, which is the combination of a retrieving home and treatment center that keeps families together so children are not going to foster care in the state of Montana. There's a Local Arts and Experiences Cooperative which is tied to the business program. There is a Preschool Guardian Program, a Crow Leadership Program, a Life Emerging and Learning Systems Program, which is an indigenous learning system, a community gathering space, and a positive message campaign.

So these are all different programs that are going on or going forward as teams are seeking grant funding. So there's a lot of -- we are doing a lot of applying to different grants and connecting with different agencies. But all of these things -- to do any of these things, we really need a clean space on which to build.

Right now we have little kids playing in the open foundations of demolished buildings, and we have to fix

that, just as a matter of caring for the community and as a matter of caring for the kids. It would be silly to do these projects and say, hey, we care a ton about you even though we're leaving the place that you live in in disrepair.

And we have our team, which most of our hours are volunteer hours, and some of it is funded by that planning grant, a very small amount of it. So most of the community work that we've been doing is with hand tools, shovels and things like that. And we have no large equipment except for the -- with the exception of the backhoe to be able to do any of this with. And so that's why the cleanup itself is a priority.

And we handed in a new prioritized list as far as like the equipment itself being prioritized. If we could just have a Bobcat that has those front things, we can at least do something, which is really important to us to be able to do soon. Because we have the opportunity through Robert Wood Johnson to be connecting with more funders and can move these other programs forward, but we need a clean space to build on.

Okay. I'll entertain a motion.

BOARD MEMBER SMALL-EASTMAN: I guess I'd like to see them at least have some equipment to do the cleanup

and get started and then (inaudible). And we could, you know, award, you know, some funds (inaudible). That's what I would like to see.

CHAIRMAN WILLIAMS: Well, if we move on this award, we won't have any funds until -- we're not going to have any funds available for anything like this until probably next year.

I mean, we're moving on all the available funds that we have. We just don't have any money, cash money. I mean, if we were even to award this, it would be a year before you're going to get any money. And my suggestion, and we've got a couple of county commissioners in here that's had a lot of big equipment (inaudible). That's the situation we are. We don't have any -- we don't have any money to give you. Okay?

Am I right? I mean, when are we going to be issuing -- With what we acted on today, with what we acted on today, we're not going to issue any contracts until 2019 --

MS. OLSON: It really depends upon the estimated revenue.

CHAIRMAN WILLIAMS: -- latter part of 2018, you know.

MS. OLSON: Depends on the revenue. I would say that because we're at this part of the fiscal year, right,

1 July 1 will inevitably come and start the new fiscal year 2 for 2019, and then we'll know what our, what our -- we 3 will know exactly what 2018 looked like from a fiscal year 4 standpoint, and then we'll, we'll have those funds 5 available, but as they come in on a month-by-month basis. 6 CHAIRMAN WILLIAMS: I mean, we've got to think 7 about that, available funds. You know, we issued the 8 \$500,000 to MSUB. That, that -- we're out until 2019. Yeah. 2019. 9 So I'll entertain a motion on 847. 10 11 BOARD MEMBER HENNING: Mr. Chairman. I will move 12 to vote, vote on the grant application as it stands. 13 CHAIRMAN WILLIAMS: Okay. Second? 14 A BOARD MEMBER: Second. CHAIRMAN WILLIAMS: It's been moved and seconded 15 16 to move 847 forward to a vote. Discussion? 17 Discussion of the public? 18 Vote, please. 19 MS. PICHETTE: Vice-Chair Fitzpatrick. 20 VICE-CHAIR FITZPATRICK: I work with the mayor in 21 our county office (inaudible), and so I recuse myself. 22 MS. PICHETTE: Shawn Fredrickson. 23 BOARD MEMBER FREDRICKSON: 24 MS. PICHETTE: Amber Henning. 25 BOARD MEMBER HENNING: No.

1 MS. PICHETTE: Marianne Roose. 2 **BOARD MEMBER ROOSE:** 3 MS. PICHETTE: Tim Schaff. 4 **BOARD MEMBER SCHAFF:** No. MS. PICHETTE: Veronica Small-Eastman. 5 6 BOARD MEMBER SMALL-EASTMAN: 7 MS. PICHETTE: Chair Williams. 8 CHAIRMAN WILLIAMS: No. 9 The request is denied. But I encourage you to think 10 about what I said and prioritize it. But when you do 11 that, when you prepare that application, based on -- work 12 with our staff and they'll walk you through the process. Work very closely with them. But understand we're a year 13 14 off from funding these. So if you have a project that's 15 important to you as far as moving debris and those types 16 of things, I would suggest you take a look and see what 17 options are out there available to you. So thank you. BOARD MEMBER HENNING: 18 I would also encourage you 19 to resubmit. I think this is a great thing that you're 20 doing in your community, and just get us a prioritized 21 list. But keep going. This is a good project. 22 MAYOR DABNEY: Thank you. 23 CHAIRMAN WILLIAMS: Thank you. 24 Okay, folks, what we have before us -- Are there any

other public comments that anybody would like to make

25

before we move to the next process?

Commissioner.

MR. REAL BIRD: Chairman Williams, Members of the Coal Board, Big Horn County. George Real Bird here again. Where are we at with some our contracts? We have some previous contracts where we have them near closed out or we need to get contracts for, or is it the same thing, we're still waiting on availability of funds?

MS. PICHETTE: Mr. Chairman, if I may, the projects that were awarded at the June meeting for this fiscal year's funding, which started after July 1st, we have now received enough revenue to contract those. So we can check to see where they are, but they are in the electronic process. So you should be receiving an email (inaudible) those contracts. But it would only be for the June ones as we had to wait until we had revenue to be able to fund all of them at once as they were not prioritized of order we could contract.

So maybe give me a call next week (inaudible) come through the system and we'll make sure where it is.

MR. REAL BIRD: All right. Thank you. You bet. I know we're probably still (inaudible) September ones. But our June ones, we wanted to know where they are and they didn't get lost in the mail. Thank you.

CHAIRMAN WILLIAMS: Okay. Thank you.

1 Other comments?

Okay. What we have is confirmation of the next meeting date and the city. Currently, we had it set up, this was some time ago, June 21st. I do have a conflict with that. Could we set it up at a different time in June?

BOARD MEMBER ROOSE: John, now this is Marianne. I also have a conflict. I would like us to move it into the next week, if that would be possible, on the 28th.

BOARD MEMBER SMALL-EASTMAN: I also have a conflict. I'd like to move it back (inaudible).

MS. OLSON: Can I just say something?

CHAIRMAN WILLIAMS: Sure.

MS. OLSON: I want to make sure that you understand. As we look at the end of each fiscal year, it's important to remember that when you all award funds that potentially are from one fiscal year to another, that that would give staff one day to execute a contract. That means not only write it, get it to the local government, and then also give it to the Board Chair to execute. I've never seen that happen within 24 hours. That would be pretty -- a pretty insurmountable task.

what that does without executing the contract, it does not obligate the funds. And so if you're considering moving the date, if I might, staff would request that you

1 move the date up rather than further into the calendar. 2 BOARD MEMBER ROOSE: This is Marianne. If you're going to do that, then I'd like to look at the first week 3 4 in June or the, like the 25th, the Monday of that week, if 5 you won't consider the 28th. 6 MS. OLSON: Marianne, just to clarify, you said 7 the 13th of June? 8 BOARD MEMBER ROOSE: No. I am going to be in Indianapolis that week. So, you know, I don't know what 9 10 works for everybody else, but I'm gone the whole week of 11 the 11th through the 15th. 12 So John, what works for you? You mentioned that third week or that 21st and 22nd didn't work for you. 13 14 CHAIRMAN WILLIAMS: Unless we moved it up -- what 15 about if we moved it a little earlier, the 20th of June, 16 something? 17 BOARD MEMBER ROOSE: If we did it on the 20th, I 18 could probably do that. I couldn't do the 21st, but I 19 could do Wednesday the 20th. 20 CHAIRMAN WILLIAMS: Tell me what fits. The 20th. 21 everybody? 22 BOARD MEMBER ROOSE: Wednesday the 20th would 23 work good for me. What about everyone else? 24 BOARD MEMBER SMALL-EASTMAN: What's the chances 25 of having it in Bozeman on the 20th?

1 BOARD MEMBER ROOSE: (Inaudible) to meet. 2 MS. OLSON: (Inaudible) can decide the location. BOARD MEMBER SMALL-EASTMAN: I'm good for the 3 4 20th. 5 BOARD MEMBER ROOSE: I would support the 20th in Bozeman. That's great. 6 7 CHAIRMAN WILLIAMS: Any time we move further 8 (inaudible) we're moving it further from those folks that 9 are going to be bringing in the applications 10 geographically. That's the problem we get into if we move it further -- if we move it further west. It makes them 11 12 travel further, our applicants. So we've tried to --BOARD MEMBER FREDRICKSON: Chairman Williams. 13 14 Chairman Williams, this is Shawn. I would be opposed to 15 moving it to Bozeman. I'd rather it be in coal country 16 or, or Billings. 17 CHAIRMAN WILLIAMS: The 20th for right now, if we 18 did the 20th at Colstrip? BOARD MEMBER SMALL-EASTMAN: I, I oppose going to 19 20 Colstrip just because I'll be in Bozeman that week. 21 (Inaudible) Billings again. 22 BOARD MEMBER HENNING: How much further do I have to drive to Colstrip? Another, another few? Oh. Another 23 24 Golden. 45? No?

BOARD MEMBER ROOSE: This is in Marianne.

25

Ιf

1 it's not going to be in Bozeman, I would prefer Billings 2 also. 3 CHAIRMAN WILLIAMS: Okay, Board, where do you 4 want to have it? 20th is the date. 5 BOARD MEMBER ROOSE: Billings. 6 BOARD MEMBER FREDRICKSON: This is Shawn. I'm 7 for Colstrip. I would love to go to Colstrip. 8 (Phone connection was lost.) 9 BOARD MEMBER ROOSE: Can you hear us? 10 A STAFF MEMBER: Shawn and Marianne, we can hear 11 you again. We dropped the call, but we can now hear you 12 again. Thank you. 13 BOARD MEMBER ROOSE: Thank you. 14 BOARD MEMBER FREDRICKSON: (Inaudible). 15 MS. OLSON: Motion (inaudible) review that. 16 CHAIRMAN WILLIAMS: Billings. 17 MS. OLSON: For the 20th. 18 CHAIRMAN WILLIAMS: Okay. Vote. VICE-CHAIR FITZPATRICK: Yes. 19 20 MS. PICHETTE: Shawn Fredrickson. 21 BOARD MEMBER FREDRICKSON: Yes. 22 MS. PICHETTE: (Inaudible). 23 BOARD MEMBER HENNING: Yes. 24 MS. PICHETTE: Marianne Roose. 25 BOARD MEMBER ROOSE: Yes.

MS. PICHETTE: Tim Schaff. 1 2 BOARD MEMBER SCHAFF: (Inaudible). MS. PICHETTE: Veronica Small-Eastman. 3 4 BOARD MEMBER SMALL-EASTMAN: (Inaudible). 5 MS. PTCHETTE: Chairman Williams. 6 CHAIRMAN WILLIAMS: Yes. Reluctantly. I think 7 we need to (inaudible) folks (inaudible) my comments. 8 Okay. Are there any other matters that need to come before the attention of the Board? 9 10 MS. PICHETTE: Mr. Chairman, I do have some forms 11 for the Board to fill out that I can hand out to you. 12 CHAIRMAN WILLIAMS: Okay. MS. PICHETTE: Marianne and Shawn, we'll e-mail 13 14 them to you. 15 BOARD MEMBER ROOSE: Okay. Thank you. 16 CHAIRMAN WILLIAMS: Our numbers haven't, hasn't 17 changed. 427,263 remaining appropriation; correct? 18 (inaudible) stuff (inaudible) go ahead and adjourn the 19 meeting (Inaudible). 20 A STAFF MEMBER: Mr. Chair, just one -- just a comment on what, the documents that you are being handed 21 22 out at this time. The Department of Commerce is making 23 available state email accounts for board members. That 24 way we can improve some of the communication. This is an

option for you to do that so we can have consistent

25

communication and ensure that you're getting all the communication you need regarding the Board.

And then the other thing I just wanted to comment on that was discussed earlier in the meeting is the website and information being available that is in the binder, which is also made available at the table in the meeting room to the public. So we have started, as of the December meeting, putting all the information that is in the Board binder -- up to the applications. We do not put the application information up on the website. But all of that information has been being put up on a regular basis. And you can find that under each meeting.

For example, there was a question about the Budget and Project Update tab which had that revenue history and some of the other information. That is on the website. It has been on the website. So if you're on the phone or if you're looking for where that is, you go to the Coal Board meetings, you click on the meetings, and you'll see each PDF for those sections of the, of the binders. So that's available for those that are on the phone.

BOARD MEMBER SCHAFF: Mr. Chairman, I've got one more thing.

CHAIRMAN WILLIAMS: Okay.

BOARD MEMBER SCHAFF: I've talked with Jennifer. We have a lot of open contracts out there that don't seem

1 to be moving at all, and I would like to see those people 2 that have contracts and -- Well, one of them's in my 3 county. They spent 2,000 out of 280,000 or something that 4 we granted them. I would like to see them do some kind of 5 report and tell us why some of those aren't moving forward. 6 7 CHAIRMAN WILLIAMS: Sure. 8 Okay. Are there any other matters that need to come before the attention of the Board? 9 Okay. Thank you all. I'll adjourn the (inaudible). 10 11 BOARD MEMBER ROOSE: Thank you. 12 CHAIRMAN WILLIAMS: Yeah, thanks, Marianne and Shawn, (inaudible) on the, on the line. Thank you all, 13 14 Board Members. 15 BOARD MEMBER FREDRICKSON: Thank you, 16 Chairman Williams. Thank you (inaudible). 17 (End of recording.) * * * * * * * 18 19 20 21 22 23 24 25

COURT REPORTER'S CERTIFICATE

STATE OF MONTANA)

SS.

COUNTY OF LEWIS AND CLARK)

I, CHERYL ROMSA, Court Reporter residing in the County of Lewis and Clark, State of Montana, do hereby certify:

That the foregoing proceedings were transcribed into typewriting by me from a recording; and that the -175- pages contain a true record of the proceedings to the best of my ability, taking into consideration the quality of the recording.

DATED this 11th day of May, 2017.

/s/Cheryl A. Romsa CHERYL A. ROMSA
