Last Best PACE Program

Commercial property owners can apply for the Commercial Property Assessed Capital Enhancements Program, which qualifies projects to access low-cost, long-term financing for energy and water efficiency improvements, renewable energy systems and resiliency measures.

C-PACE is non-recourse, non-accelerable and may be transferred. New construction, renovations and even retroactive projects – within the past three years, are eligible. If there is existing debt, senior lender consent is required. C-PACE financing is repaid annually through a special payment added to the property tax bill.
